

# **1st PMDA** **March 3 to 7, 2014** **Medical Devices** **Tokyo, JAPAN** **Training Seminar**

*The PMDA training seminars have been provided for the exchange of pharmaceutical and medical device regulatory information between the PMDA and its counterpart agencies all over the world. In addition to the existing programs for pharmaceuticals, we are offering the 1<sup>st</sup> training seminar for medical devices and in vitro diagnostics to be held in March, 2014.*

*In this program, PMDA experts will give presentations on regulatory overview, review of medical devices and in vitro diagnostics and QMS inspection, as well as case studies.*

*Participation in this program is free of charge. All participants are expected to actively engage in all of the sessions.*

*We hope that many officials around the world will take this opportunity to enhance the cooperative relationship with PMDA.*

*The training is not open to the medical device industry or non-regulatory authorities.  
Attendees are responsible for their own travel, lodging and food expenses.*
