Revision of Precautions

Triamcinolone acetonide

March 24, 2015

Non-proprietary name

Triamcinolone acetonide (for intramuscular injection, intraarticular injection, and intradermal injection)

Safety measure

Precautions should be revised in the package insert.

In the Clinically significant adverse reactions subsection of the Adverse reactions section, the following texts should be added (underlined parts are revised):

Tendon rupture:

Tendon rupture may occur when this drug is injected into the tendo repeatedly. Patients should be carefully monitored. If any abnormalities are observed, appropriate measures such as discontinuation of administration should be taken.

NOTE

- This drug is designated to prepare a Drug Guide for Patients.
