

Acebutolol Hydrochloride

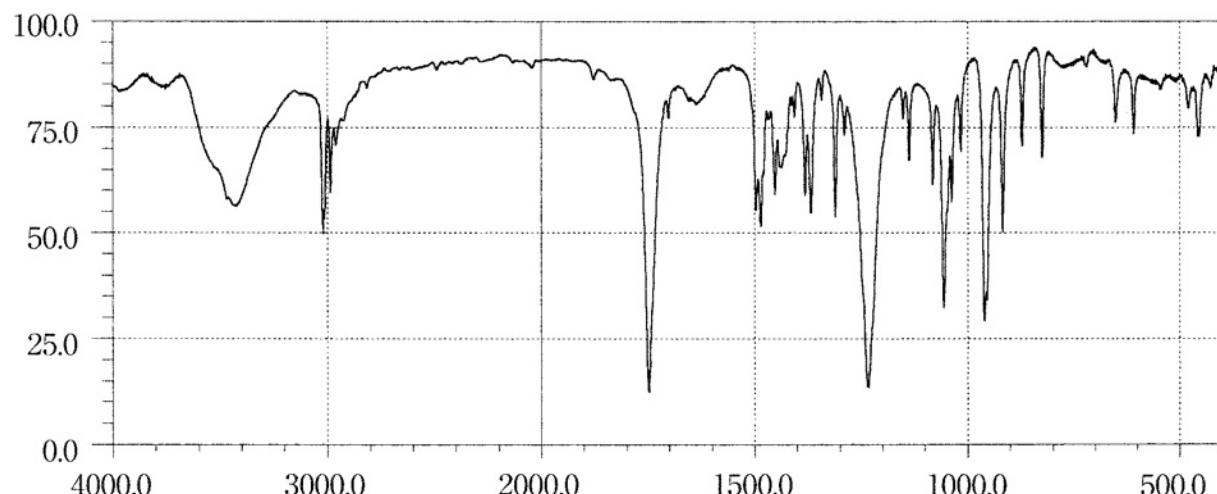

Preparation of sample: Potassium bromide disk method

Acetaminophen

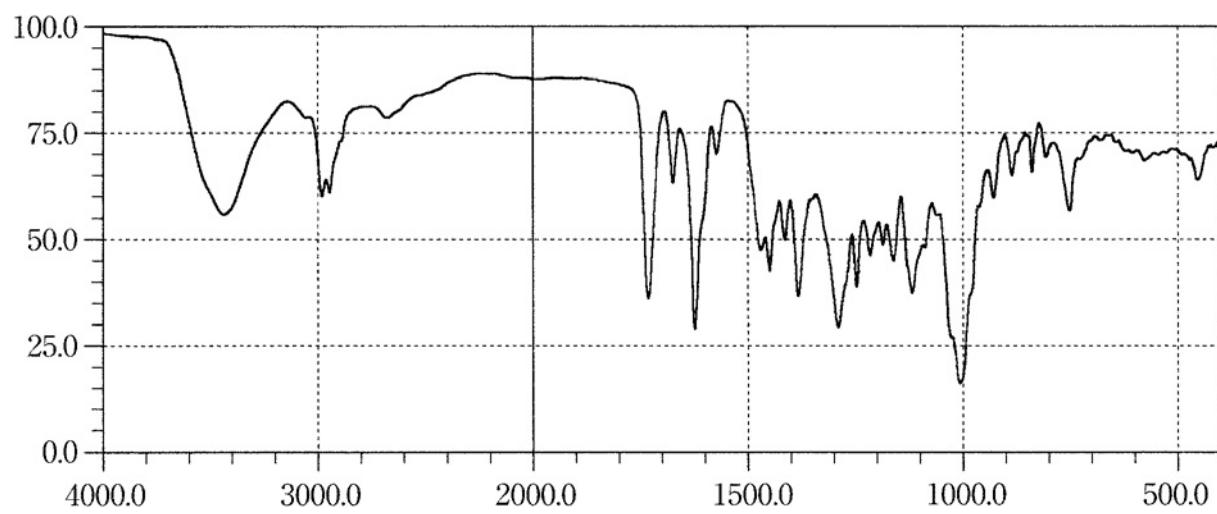

Preparation of sample: Potassium bromide disk method

Acetohexamide

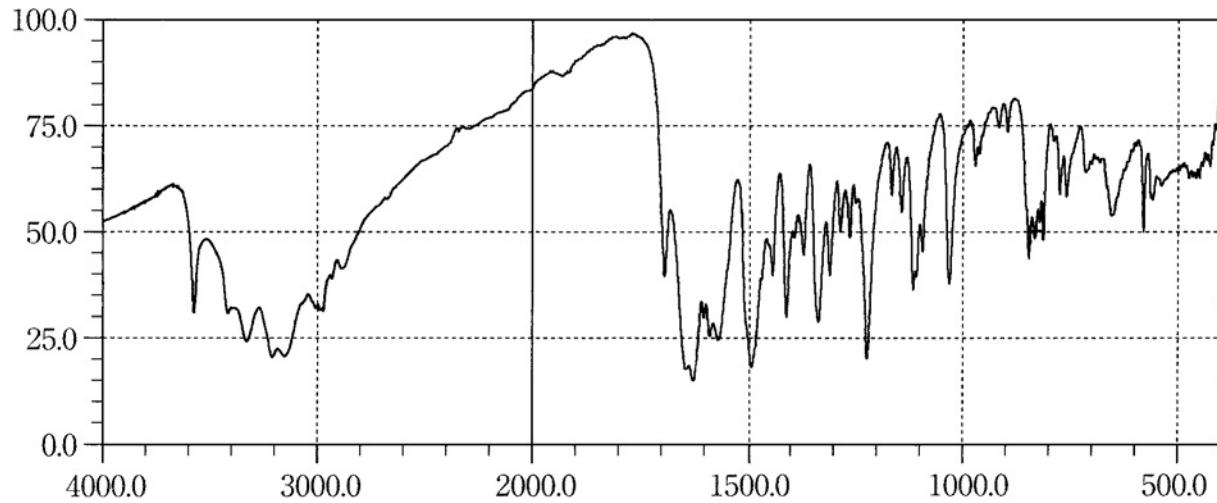

Preparation of sample: Potassium bromide disk method

Acetylcholine Chloride for Injection

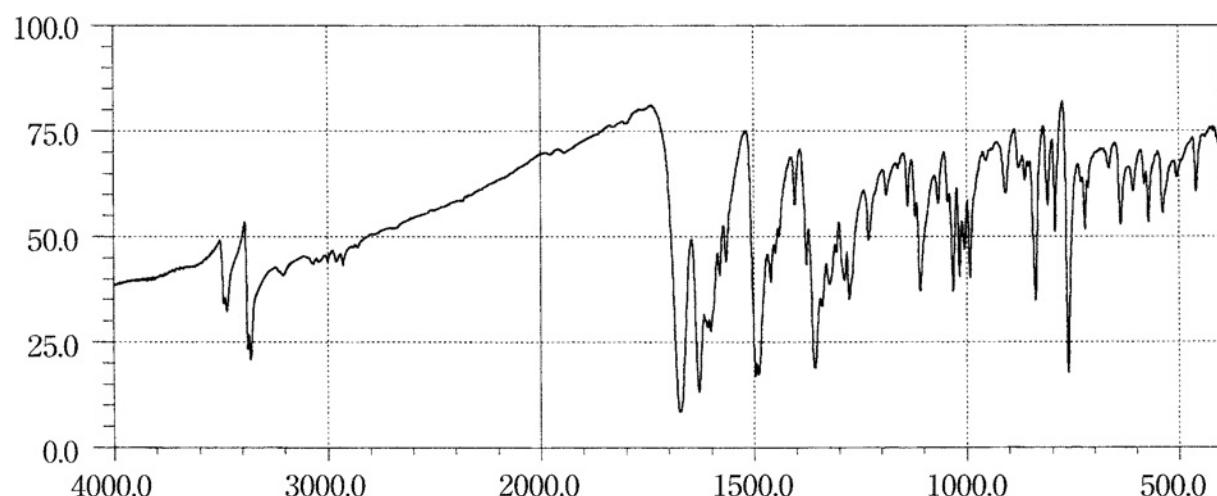

Preparation of sample: Potassium bromide disk method

Aclarubicin Hydrochloride

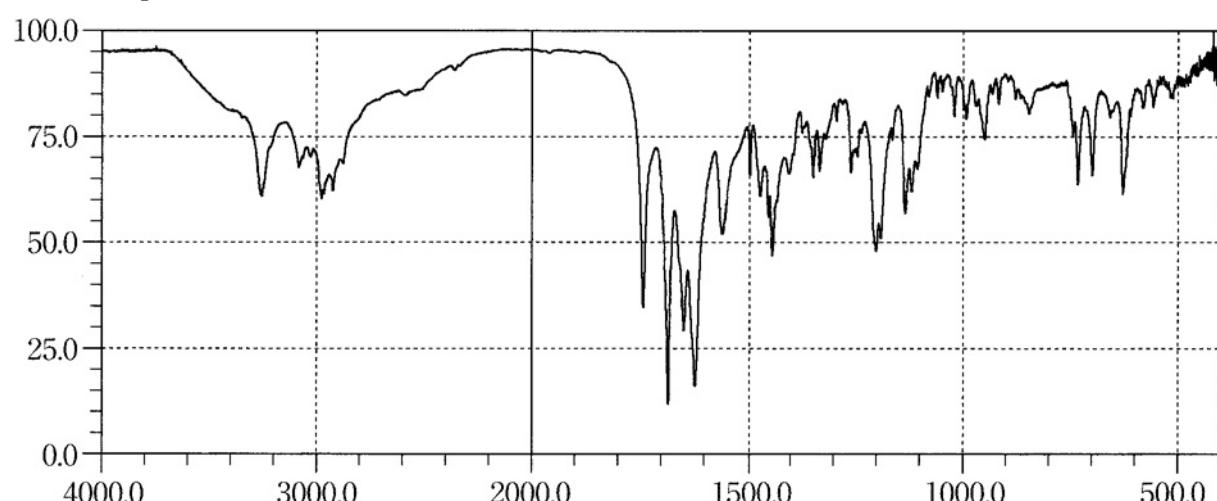

Preparation of sample: Potassium bromide disk method

Acrinol Hydrate

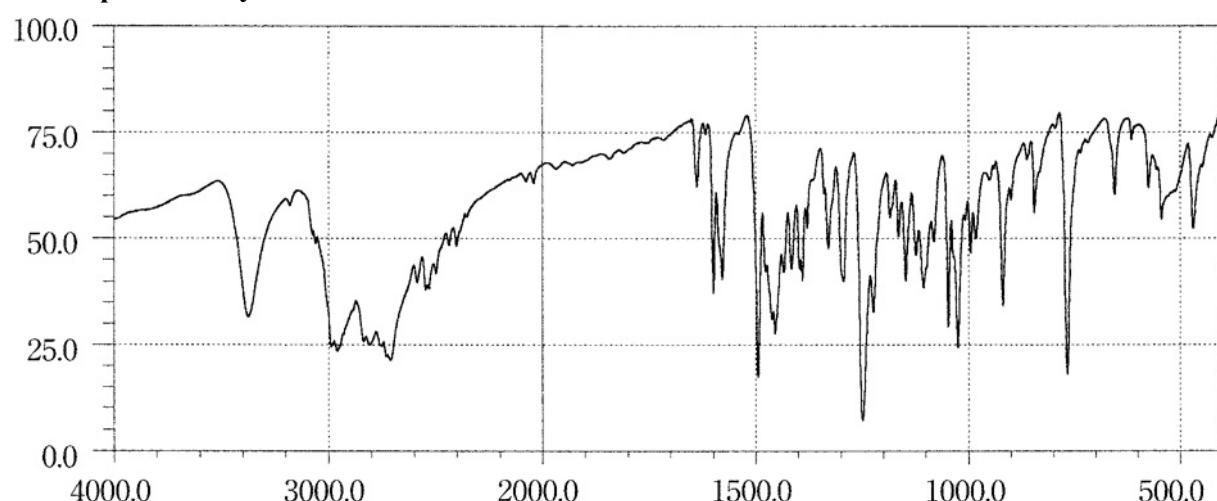

Preparation of sample: Potassium bromide disk method

Afloqualone

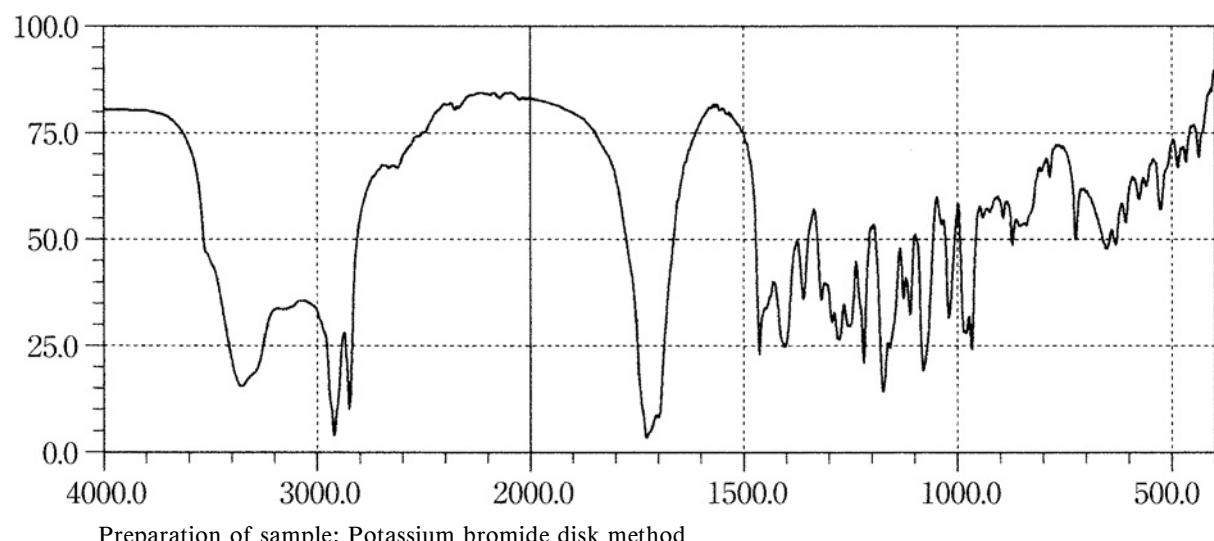

Preparation of sample: Potassium bromide disk method

Alacepril

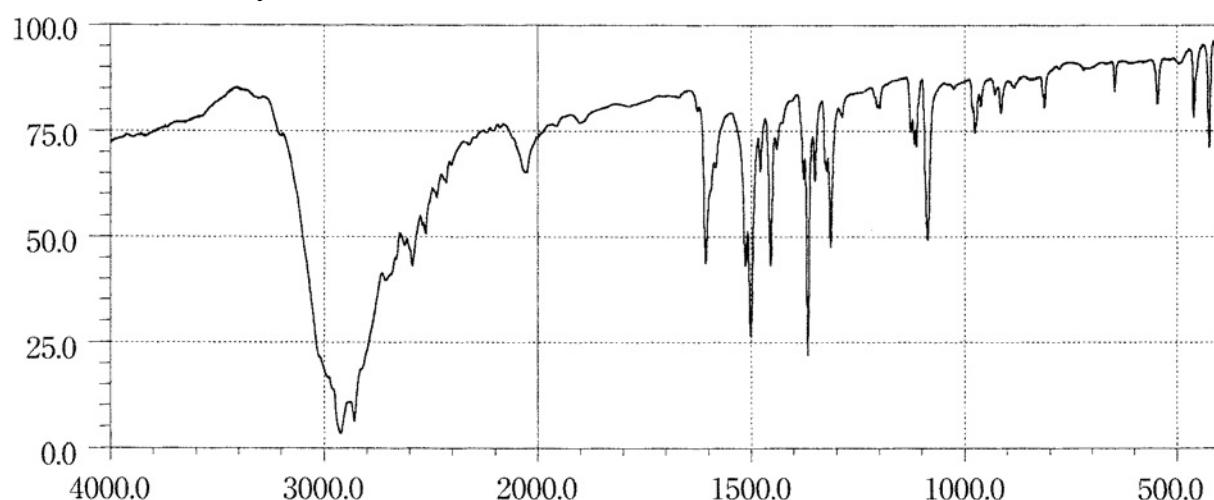

Preparation of sample: Potassium bromide disk method

Alprenolol Hydrochloride

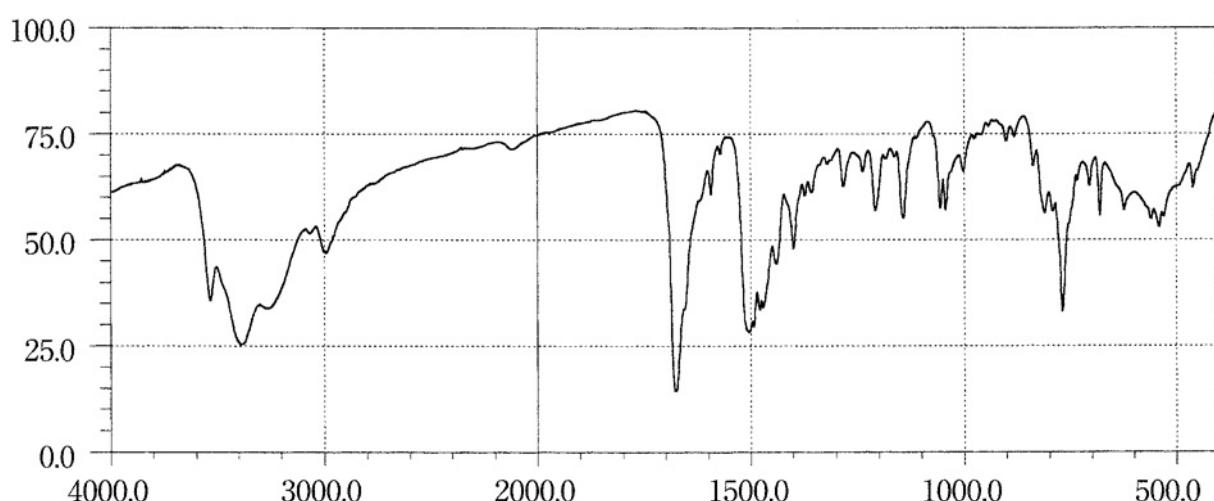

Preparation of sample: Potassium chloride disk method

Alprostadil

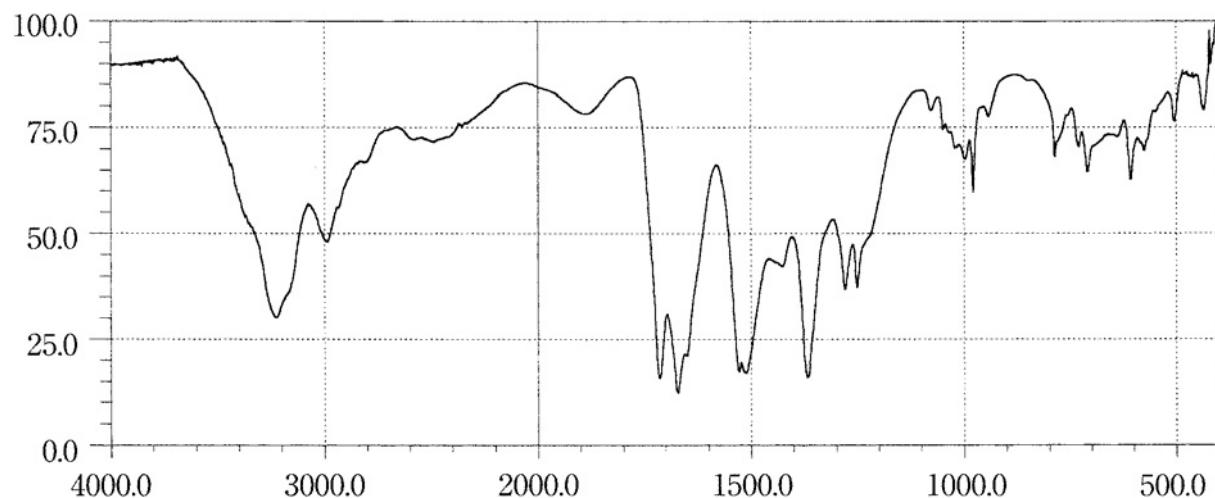

Preparation of sample: Potassium bromide disk method

Amantadine Hydrochloride

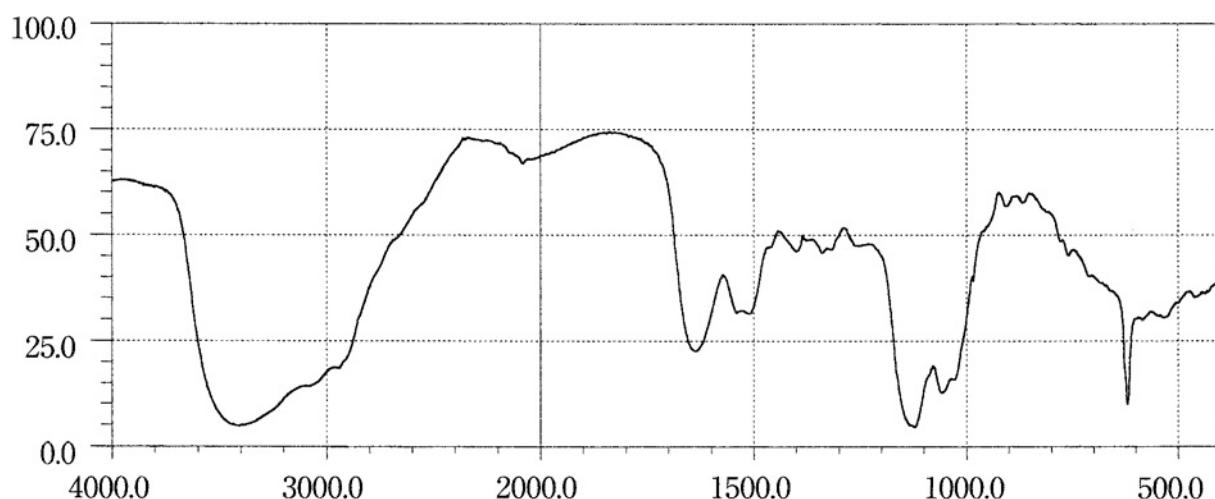

Preparation of sample: Potassium chloride disk method

Ambenonium Chloride

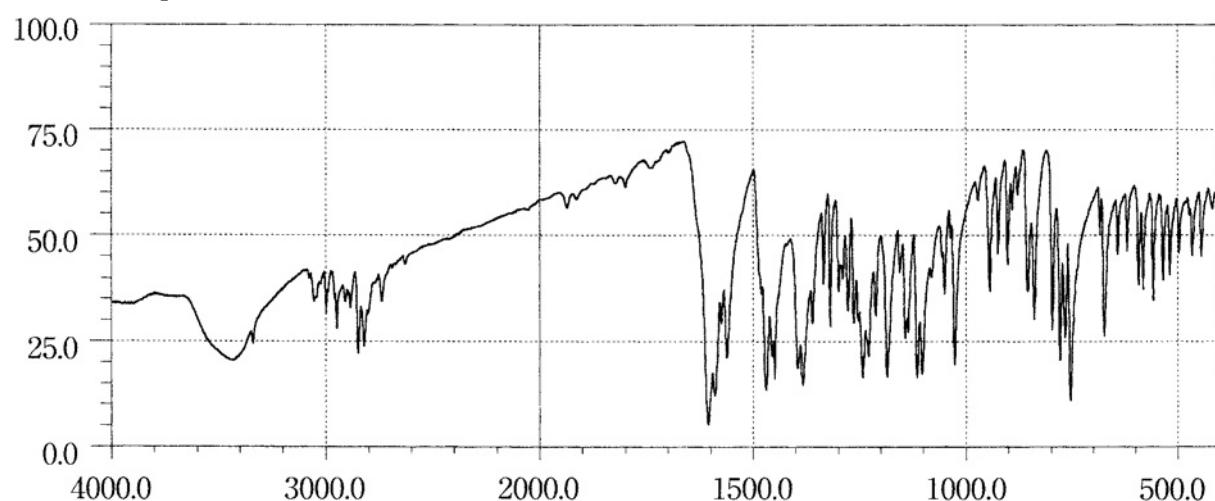

Preparation of sample: Potassium chloride disk method

Amidotrizoic Acid

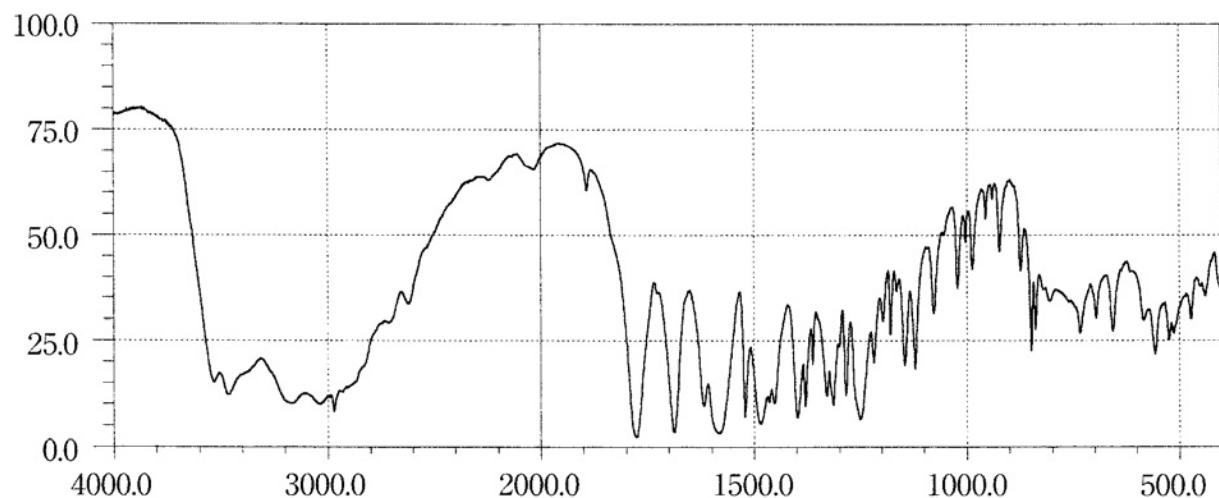

Preparation of sample: Potassium bromide disk method

Amikacin Sulfate

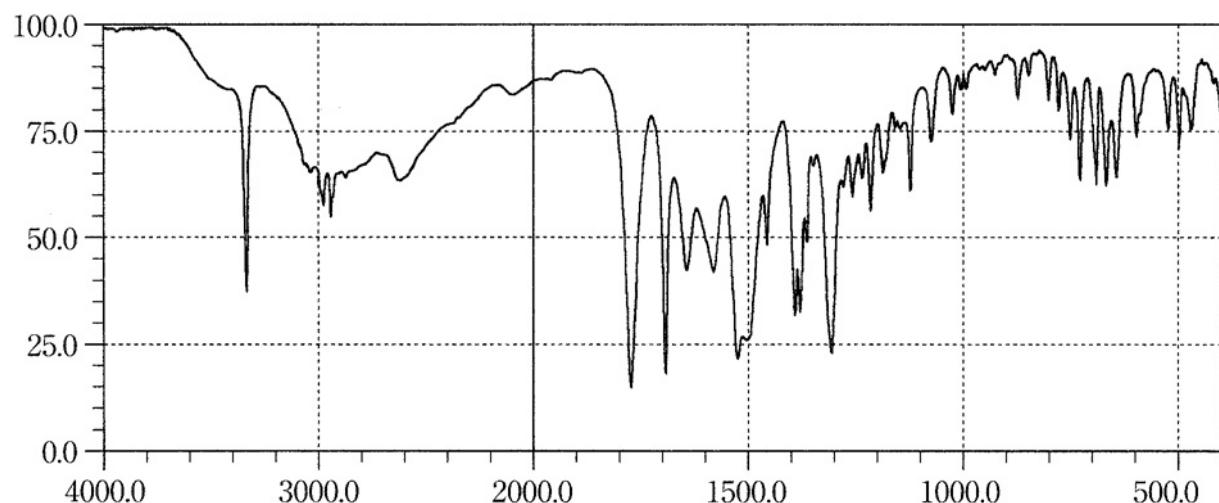

Preparation of sample: Potassium bromide disk method

Amoxapine

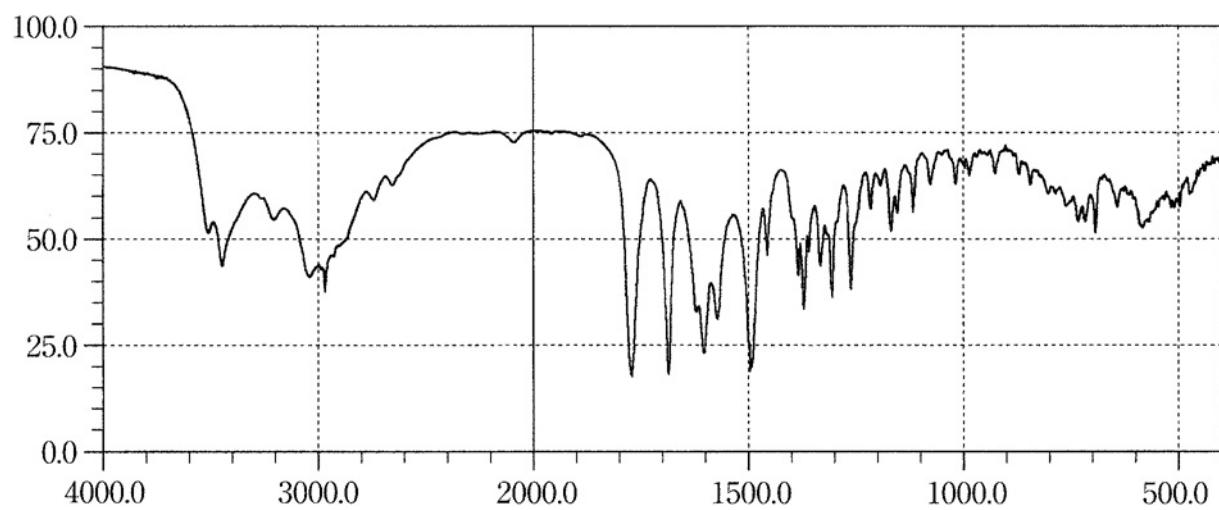

Preparation of sample: Potassium bromide disk method

Amoxicillin Hydrate

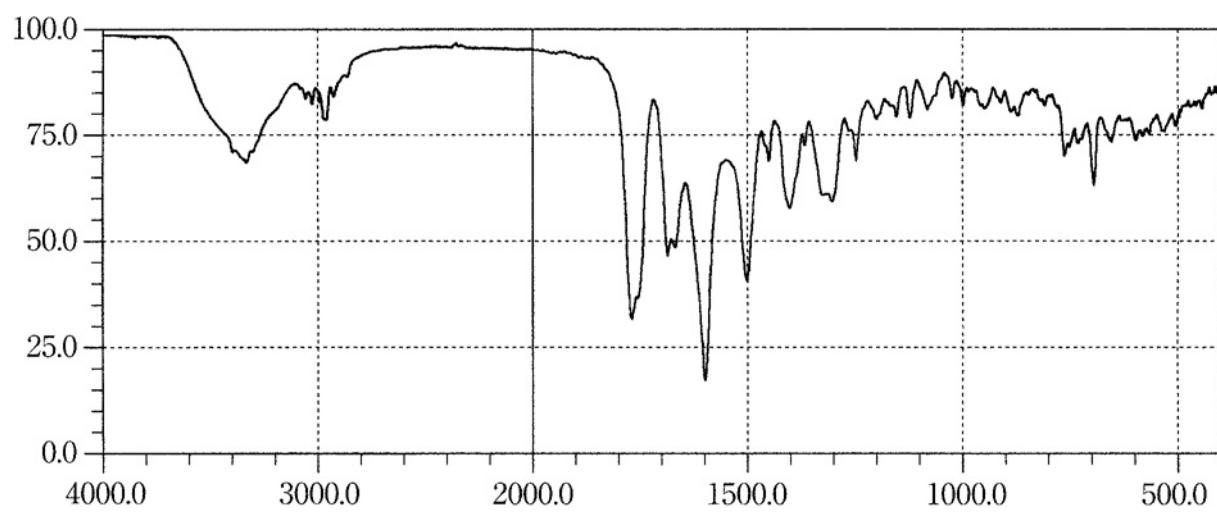

Preparation of sample: Potassium bromide disk method

Anhydrous Ampicillin

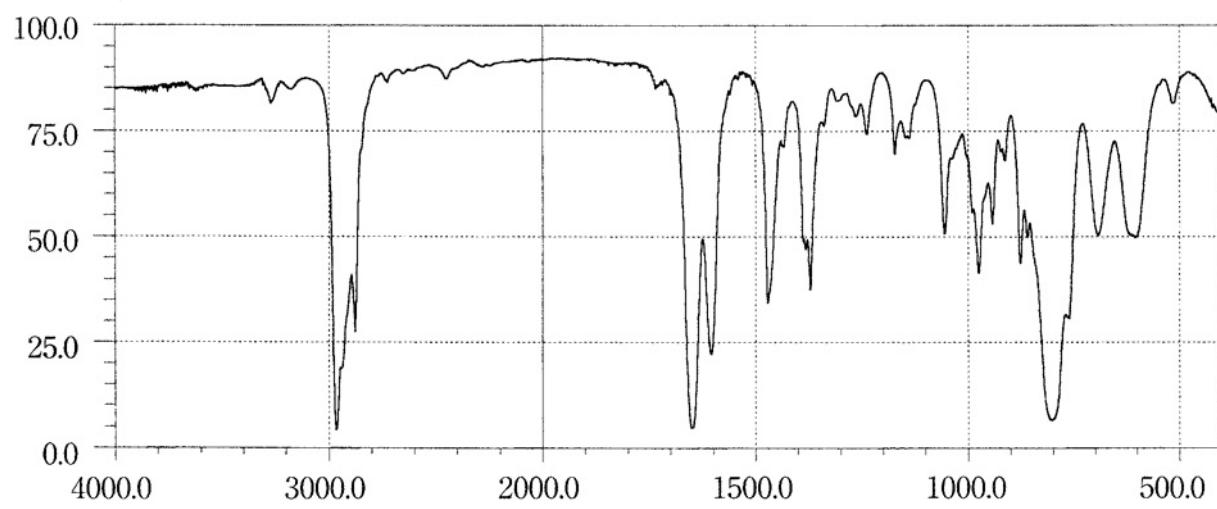

Preparation of sample: Potassium bromide disk method

Ampicillin Hydrate

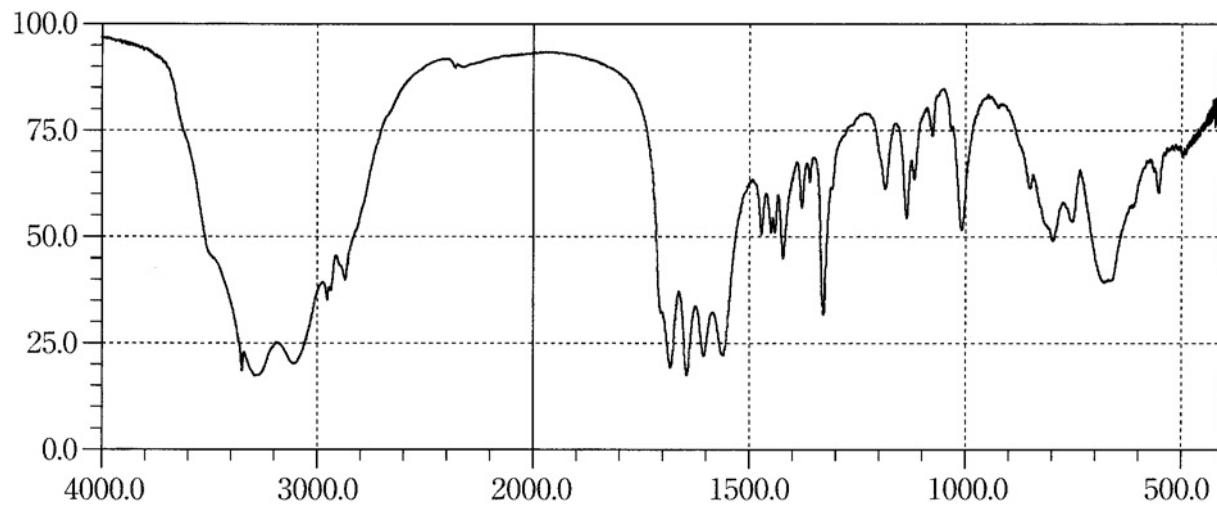

Preparation of sample: Potassium bromide disk method

Ampicillin Sodium

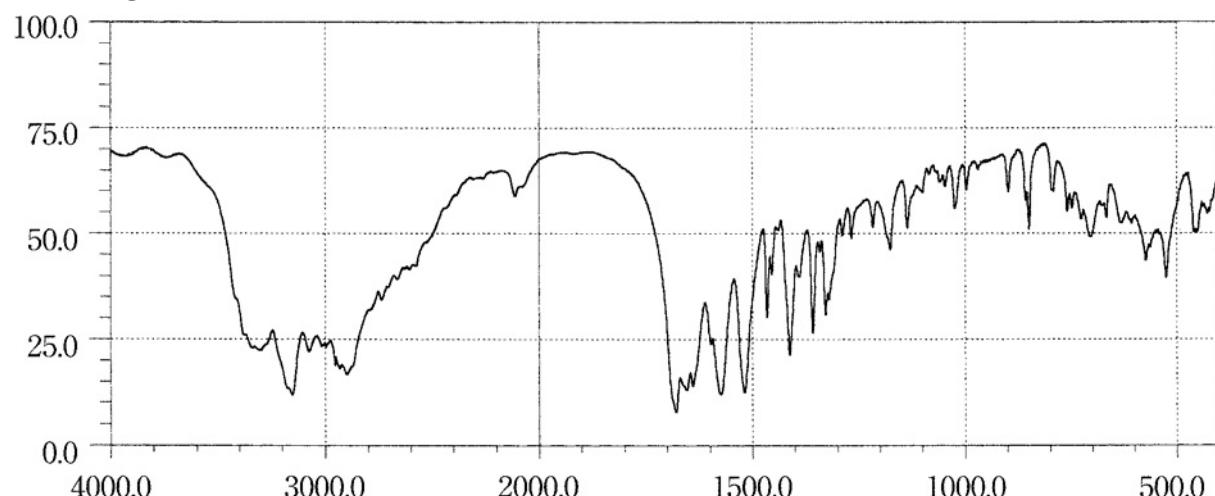

Preparation of sample: Potassium bromide disk method

Amyl Nitrite

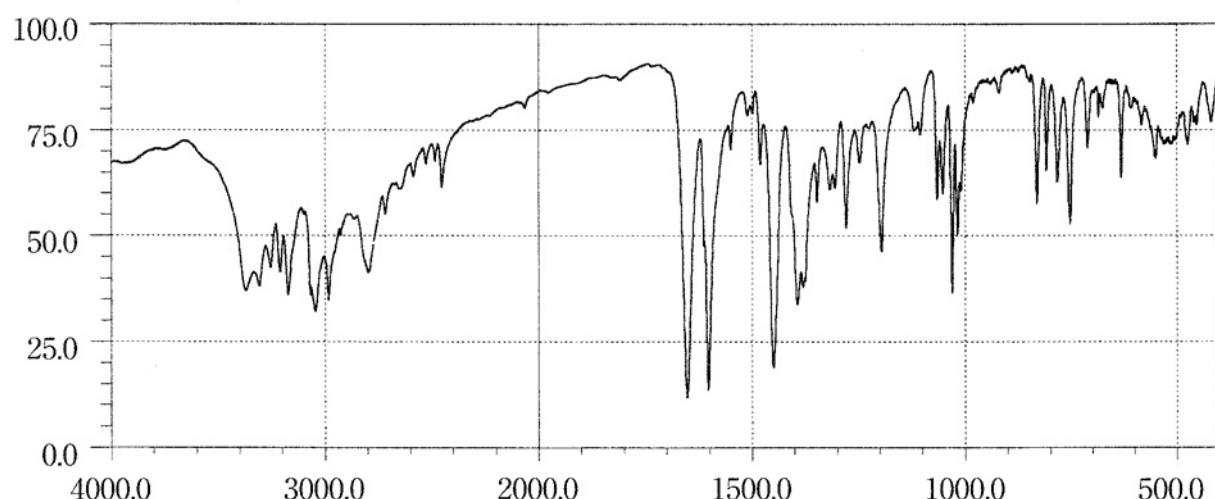

Preparation of sample: Liquid film method

L-Arginine

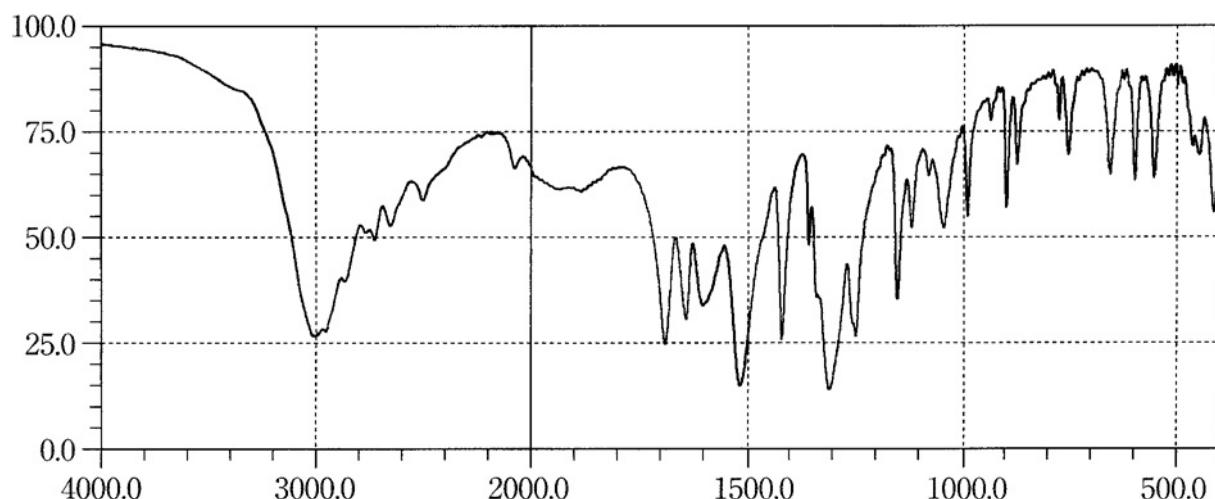

Preparation of sample: Potassium bromide disk method

L-Arginine Hydrochloride

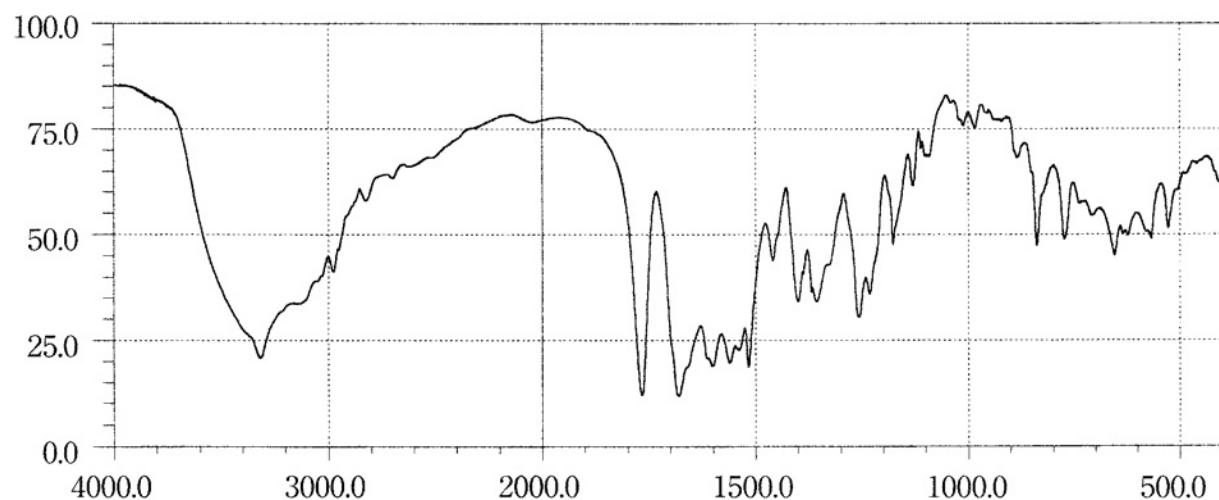

Preparation of sample: Potassium bromide disk method

Arotinolol Hydrochloride

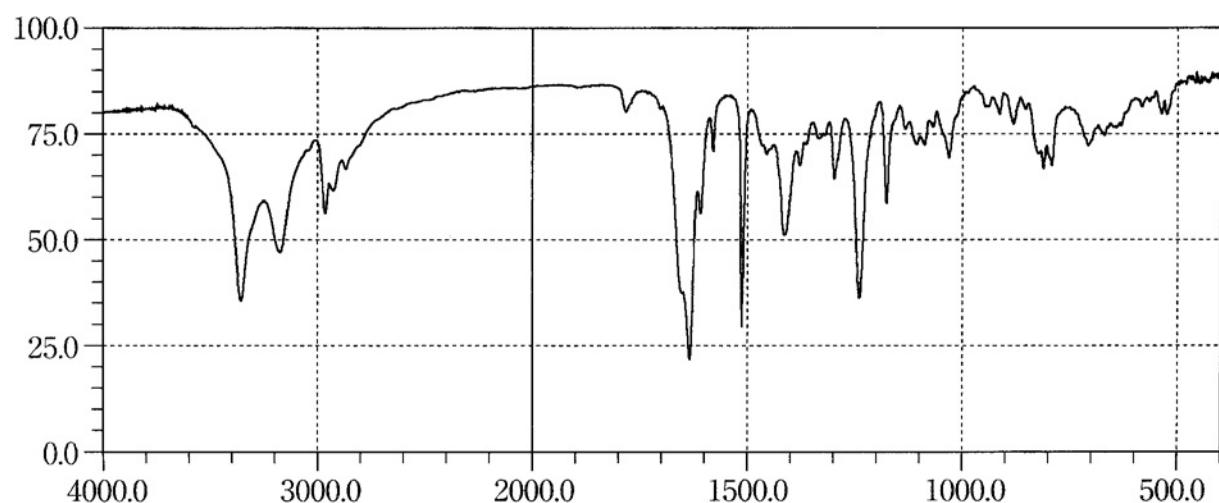

Preparation of sample: Potassium bromide disk method

L-Aspartic Acid

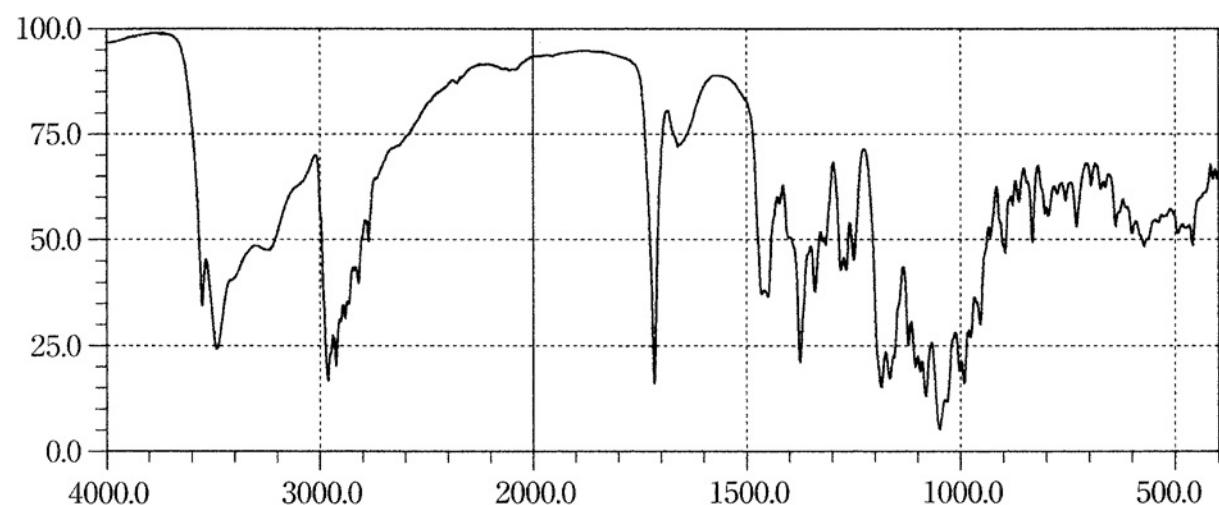

Preparation of sample: Potassium bromide disk method

Aspoxicillin Hydrate

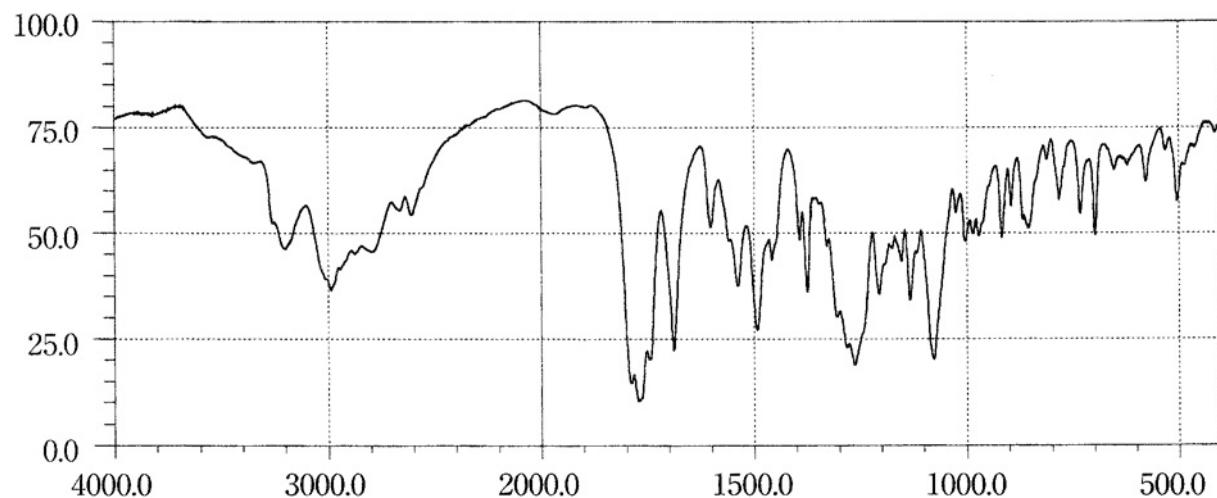

Preparation of sample: Potassium bromide disk method

Atenolol

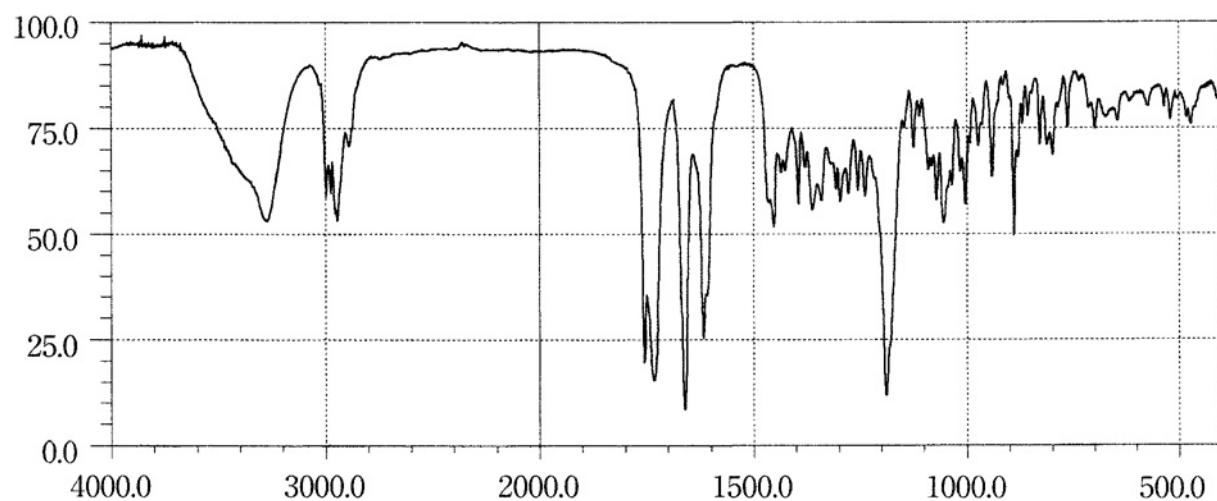

Preparation of sample: Potassium bromide disk method

Azithromycin Hydrate

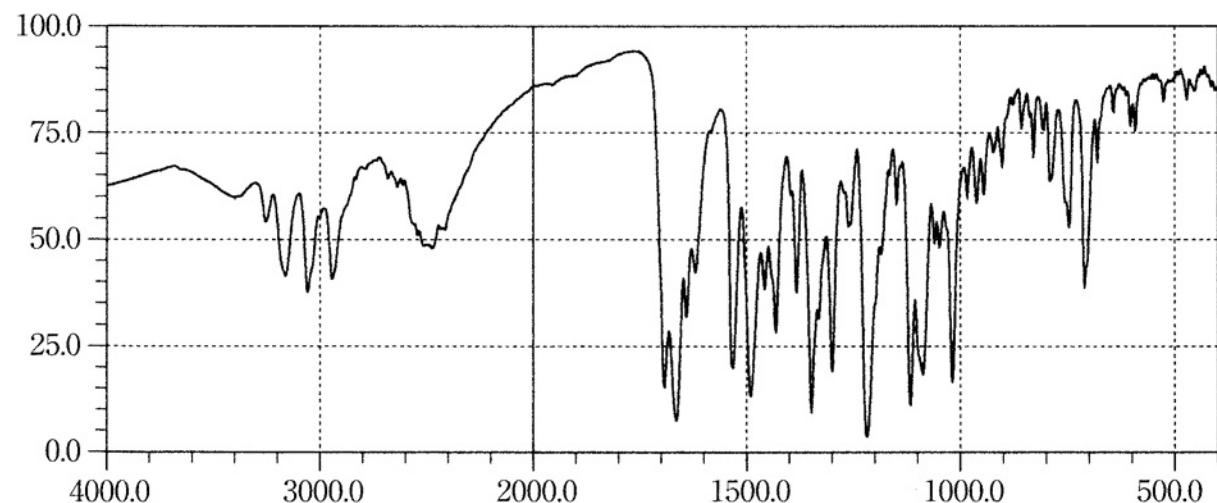

Preparation of sample: Potassium bromide disk method

Bacampicillin Hydrochloride

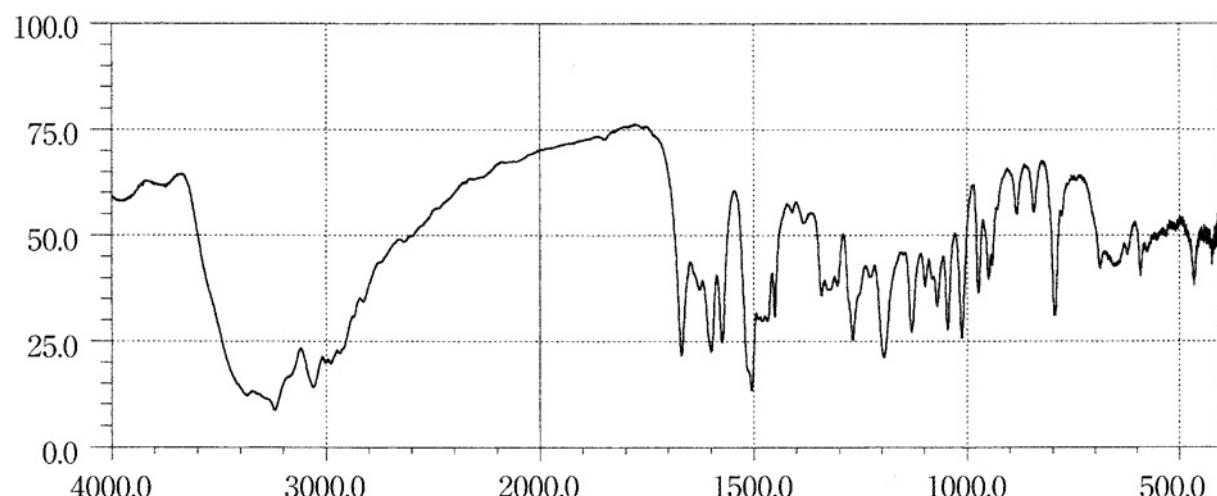

Preparation of sample: Potassium chloride disk method

Beclometasone Dipropionate

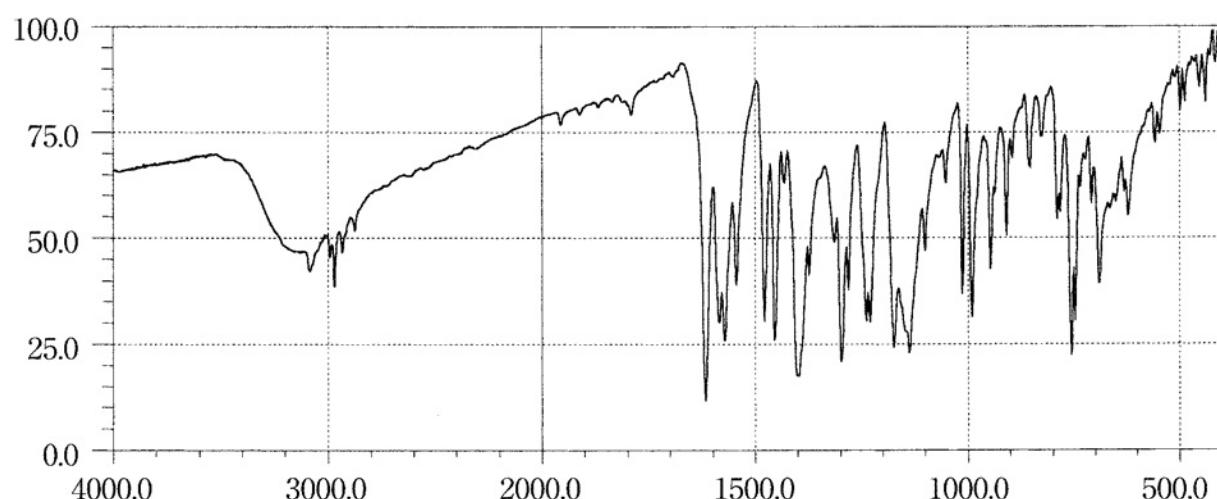

Preparation of sample: Potassium bromide disk method

Benidipine Hydrochloride

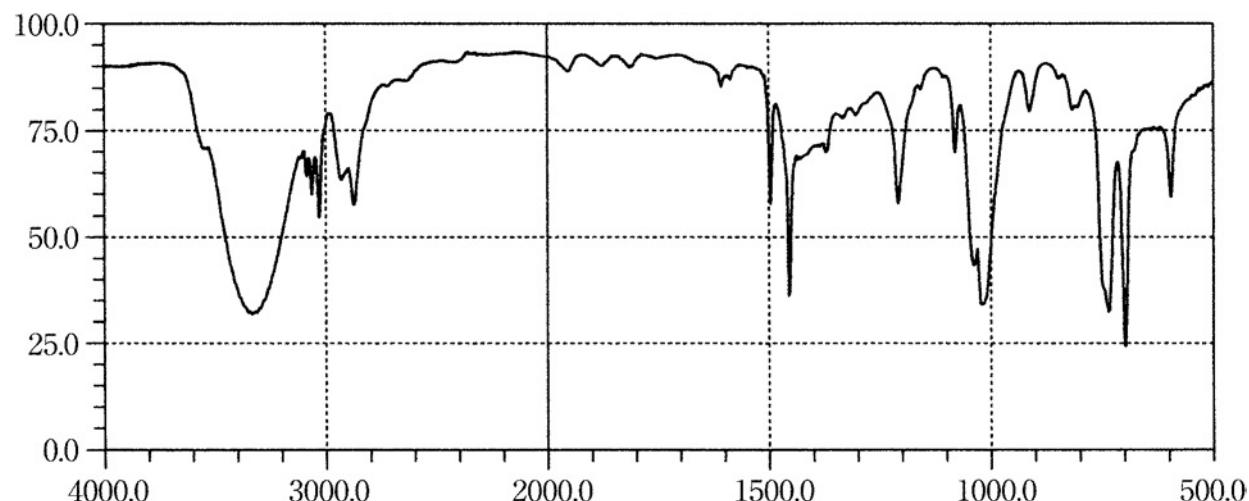

Preparation of sample: Potassium chloride disk method

Benserazide Hydrochloride

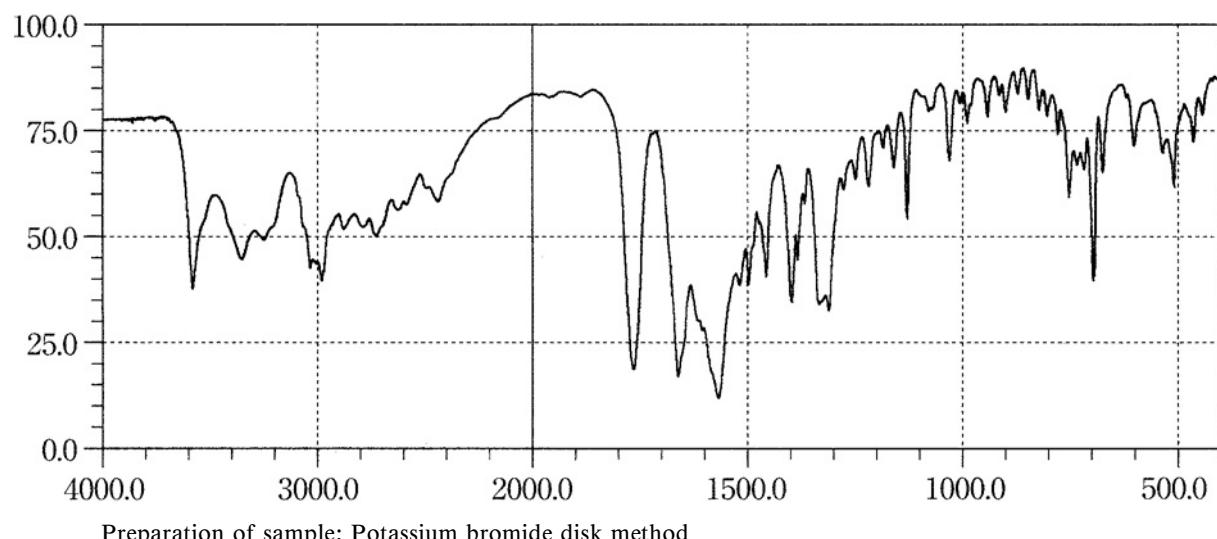

Preparation of sample: Potassium bromide disk method

Benzbromarone

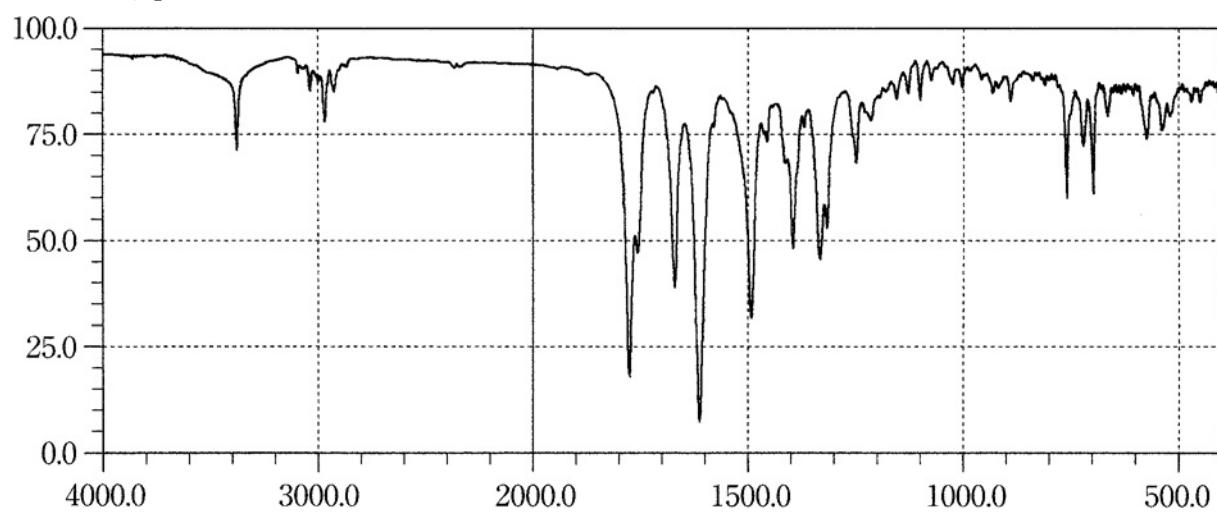

Preparation of sample: Potassium bromide disk method

Benzyl Alcohol

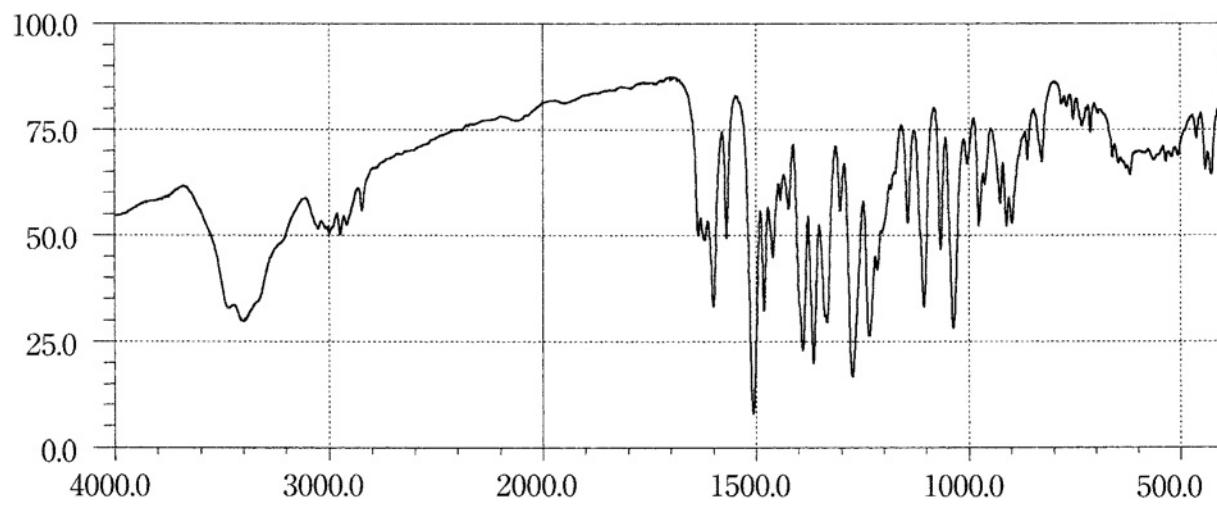

Preparation of sample: Liquid film method

Benzylpenicillin Benzathine Hydrate

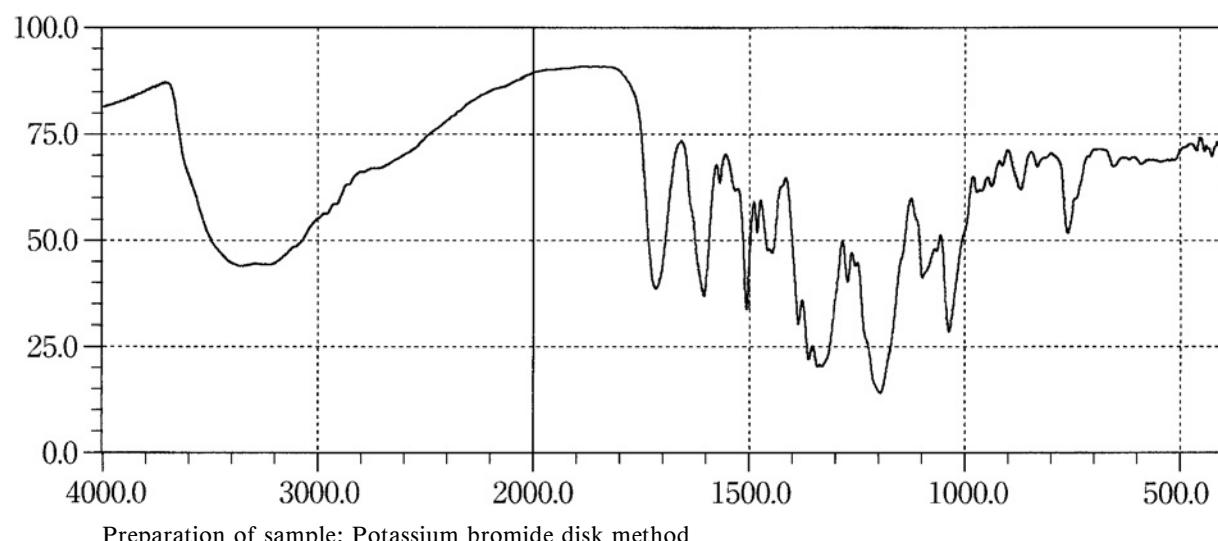

Preparation of sample: Potassium bromide disk method

Benzylpenicillin Potassium

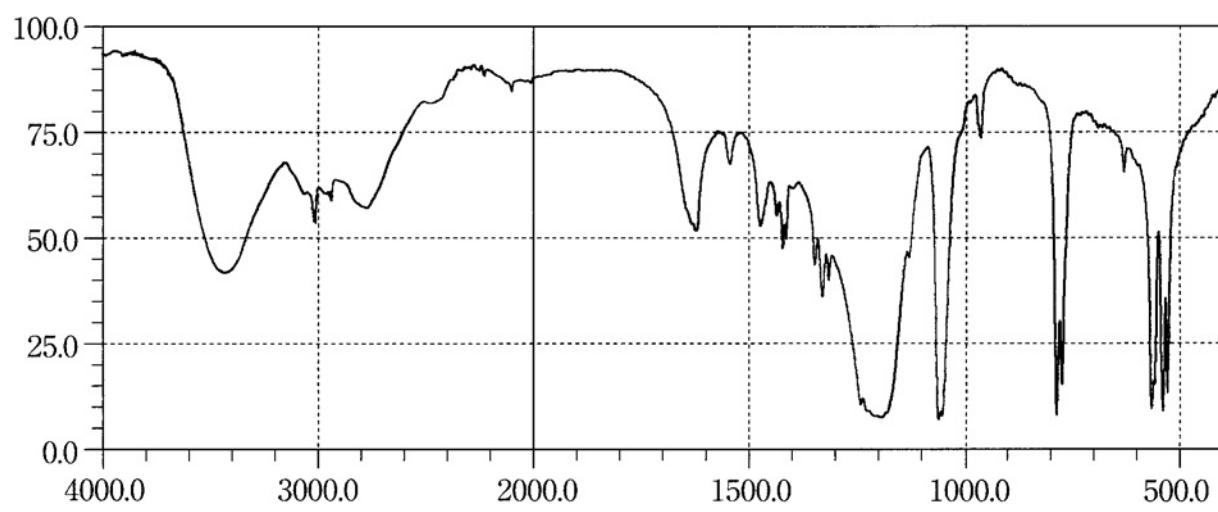

Preparation of sample: Potassium bromide disk method

Berberine Chloride Hydrate

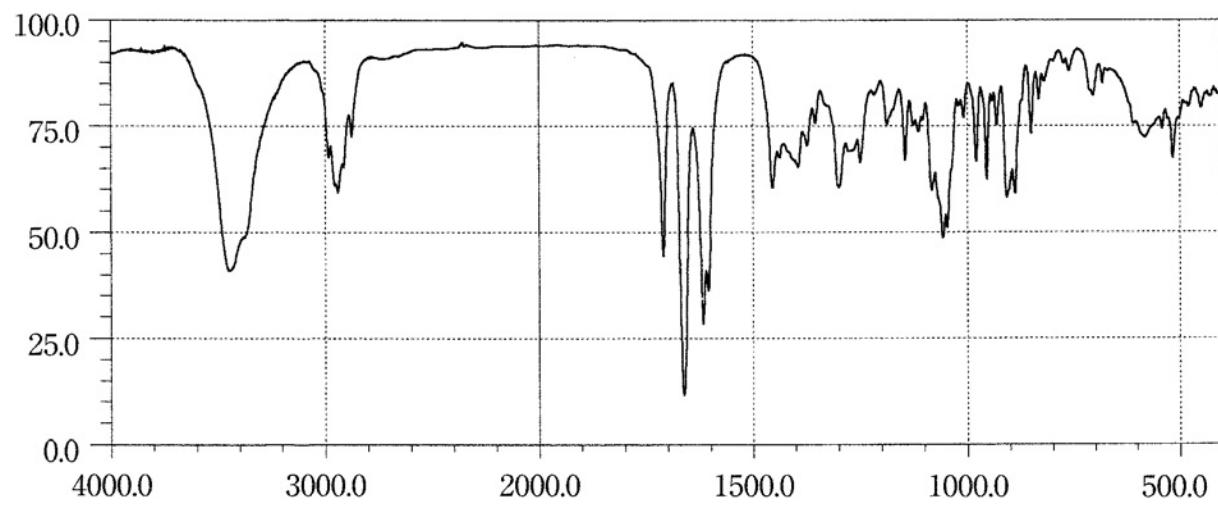

Preparation of sample: Potassium bromide disk method

Berberine Tannate

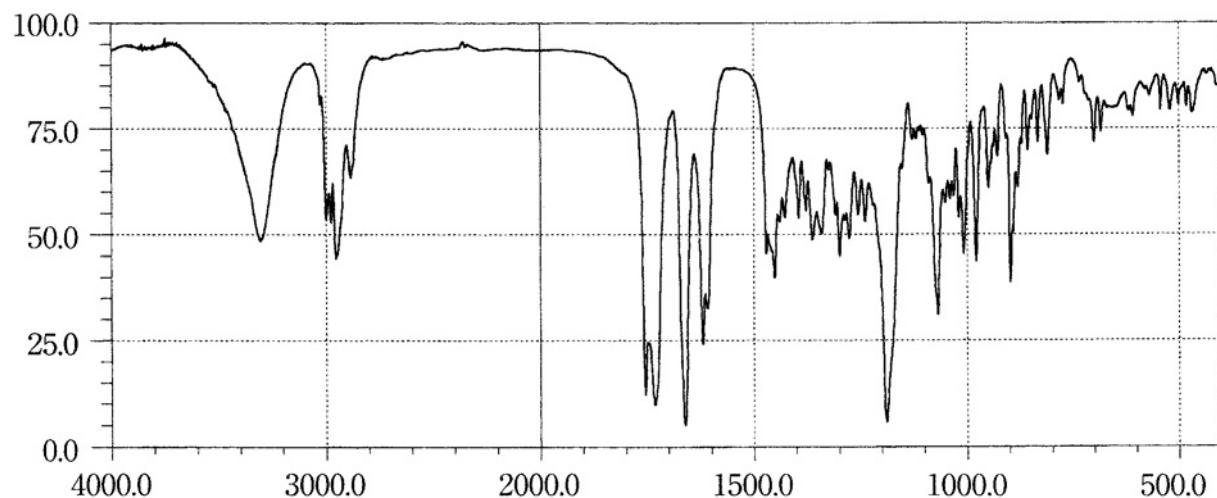

Preparation of sample: Potassium bromide disk method

Betahistidine Mesilate

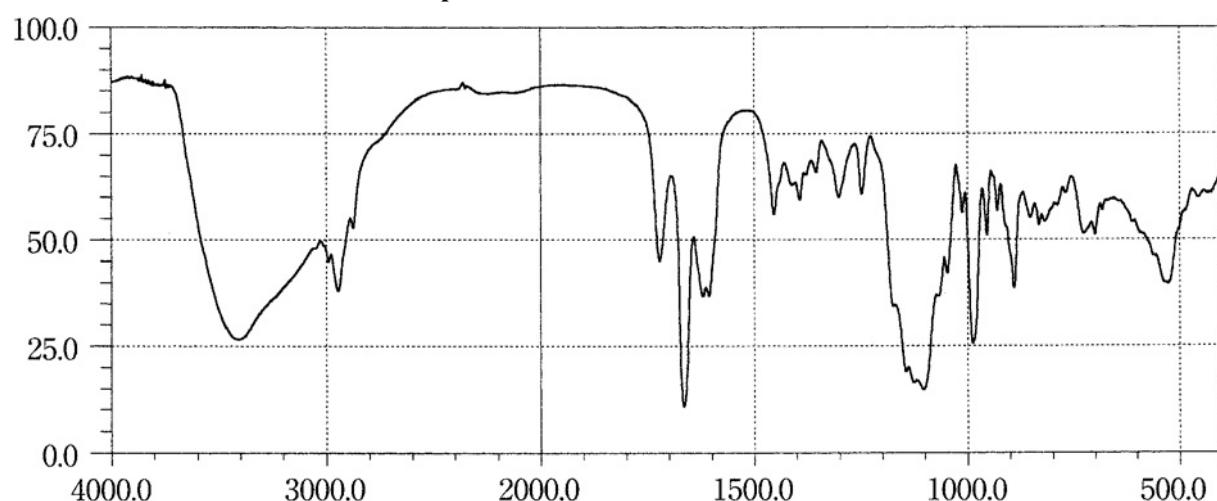

Preparation of sample: Potassium bromide disk method

Betamethasone

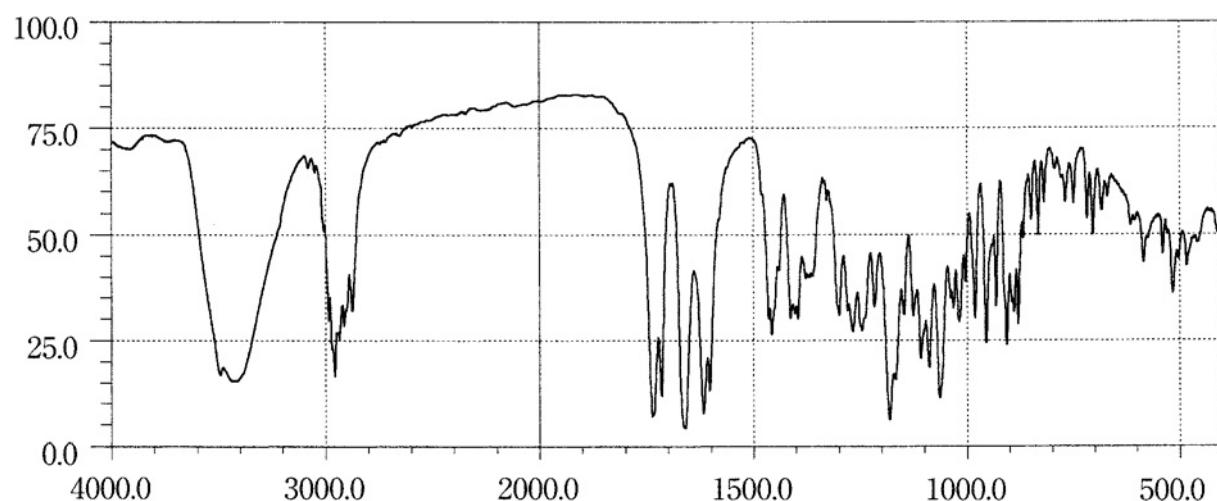

Preparation of sample: Potassium bromide disk method

Betamethasone Dipropionate

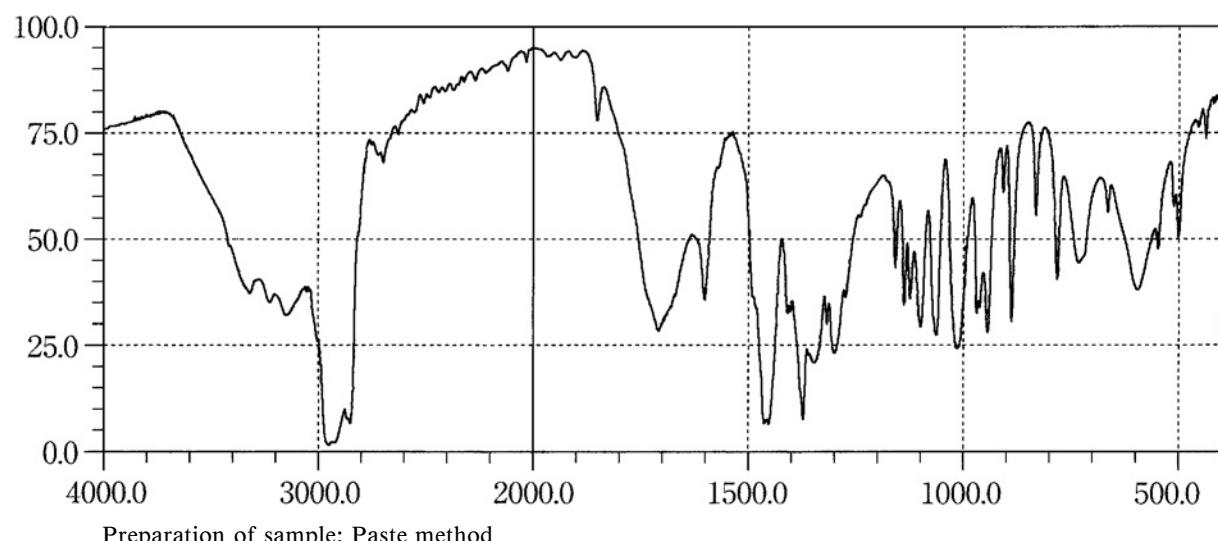

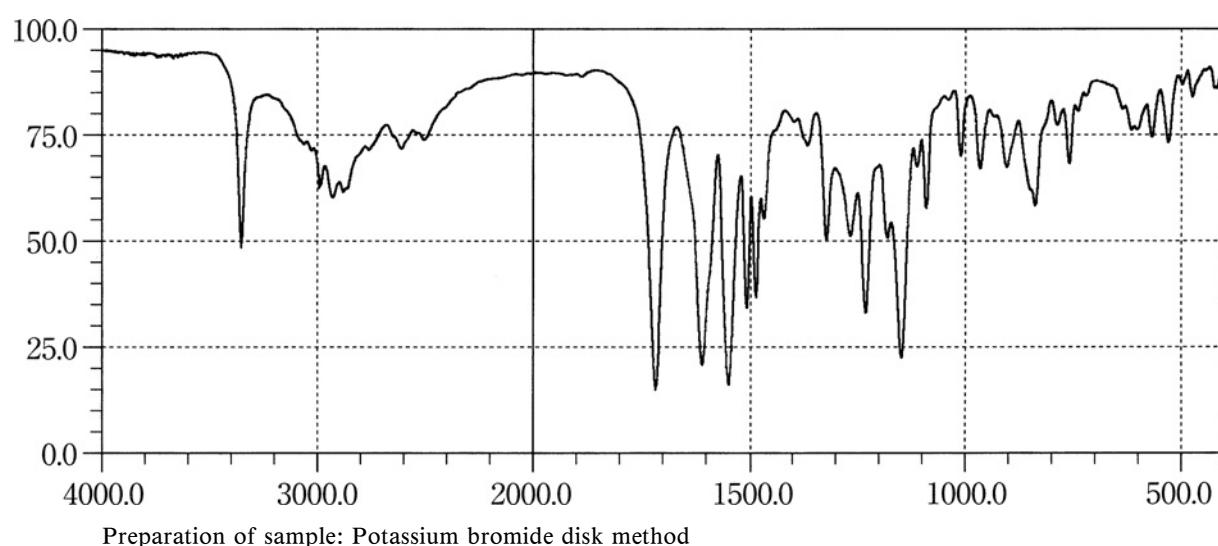

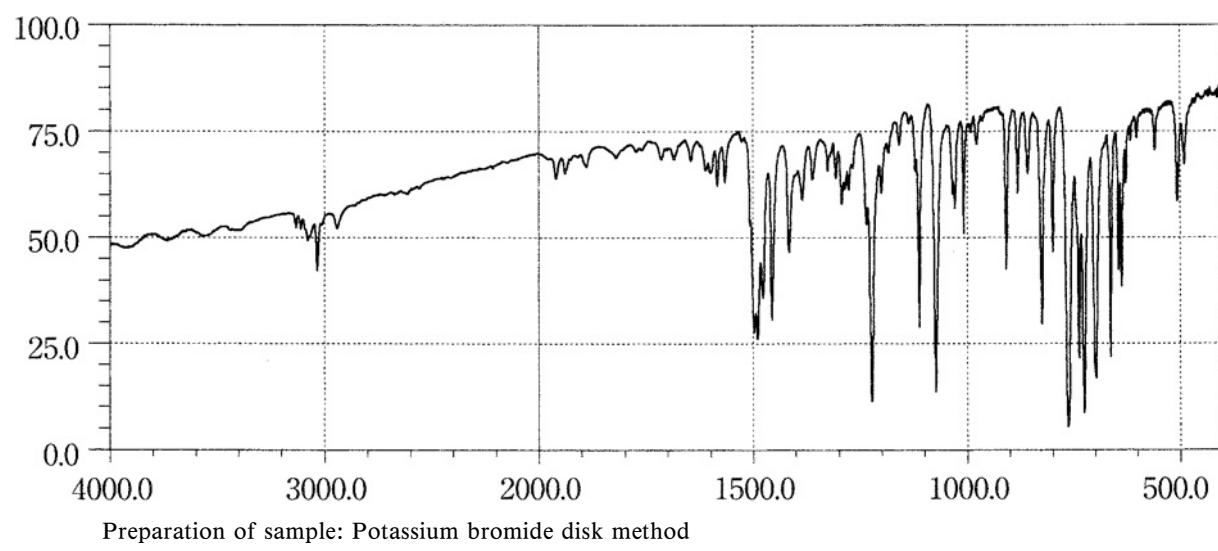

Preparation of sample: Potassium bromide disk method

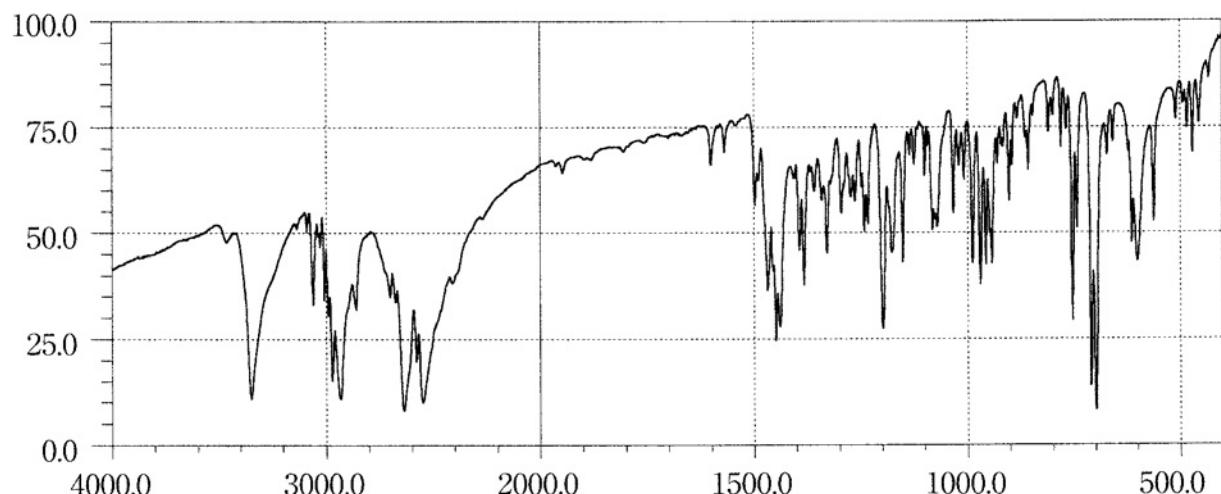

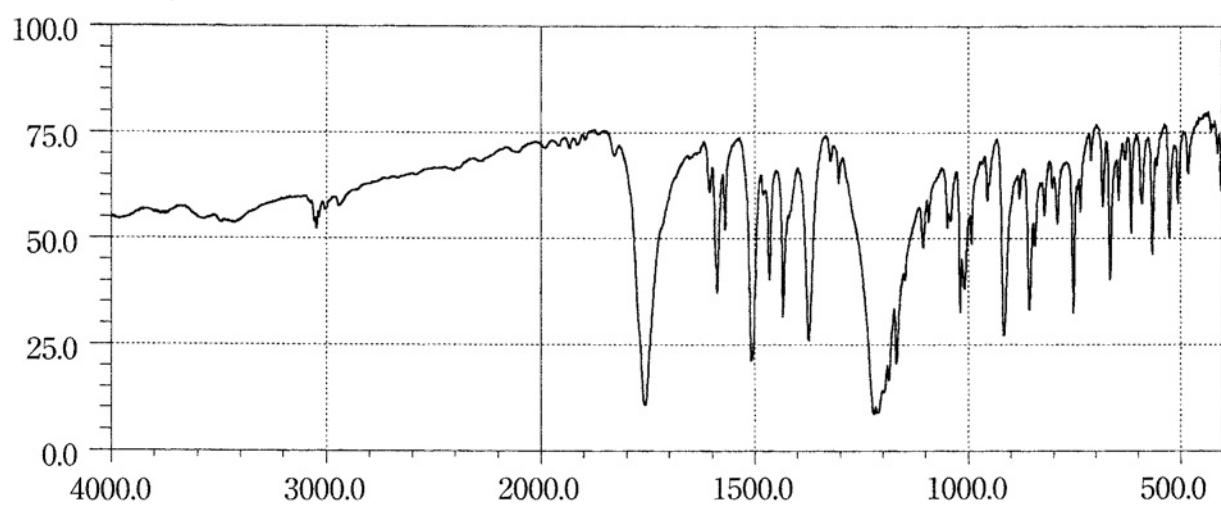

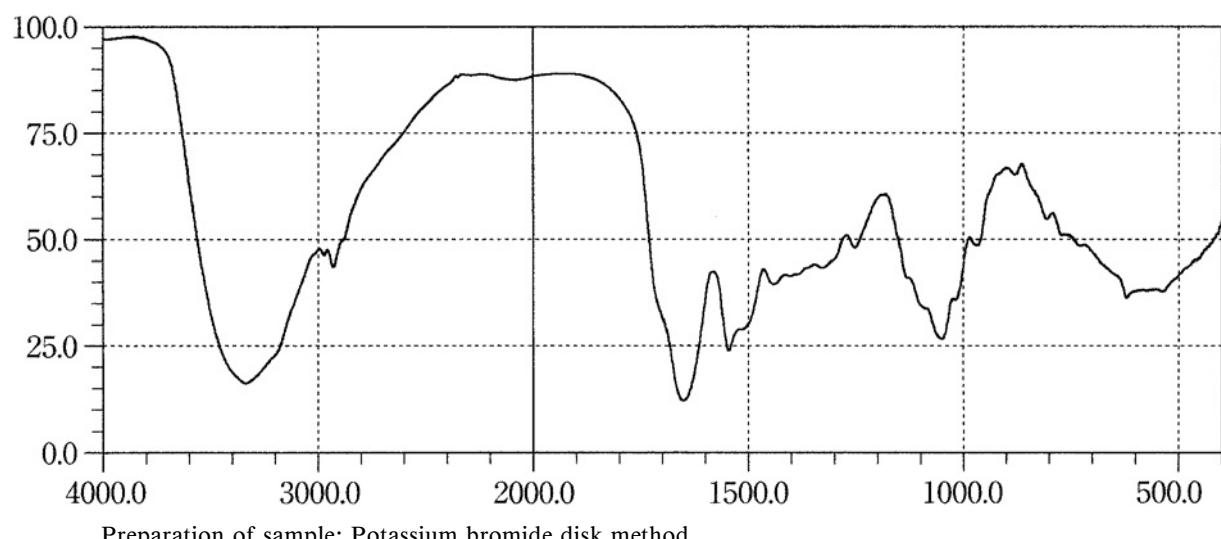

Betamethasone Sodium Phosphate

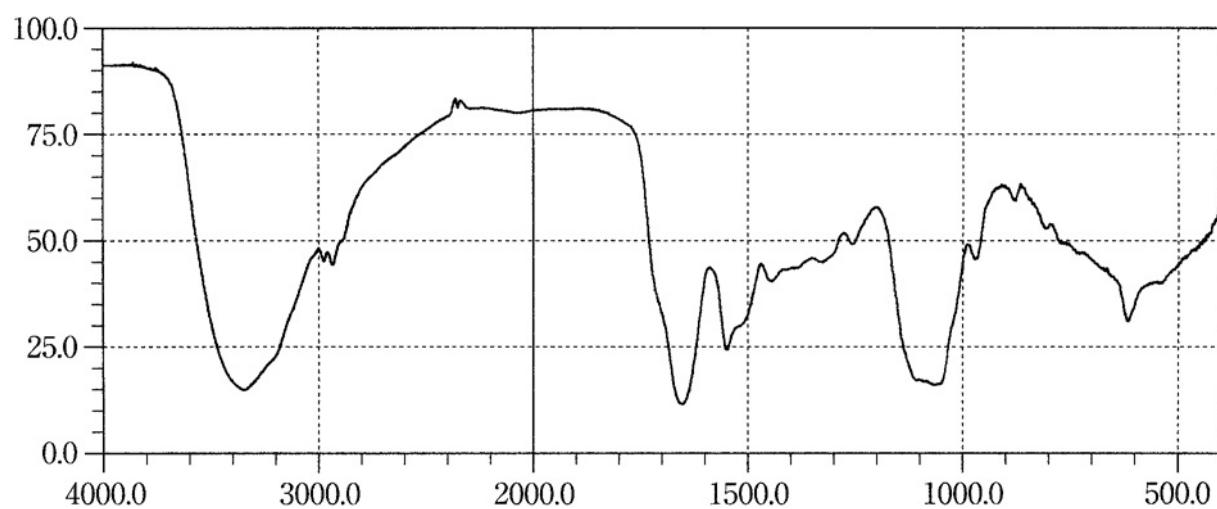

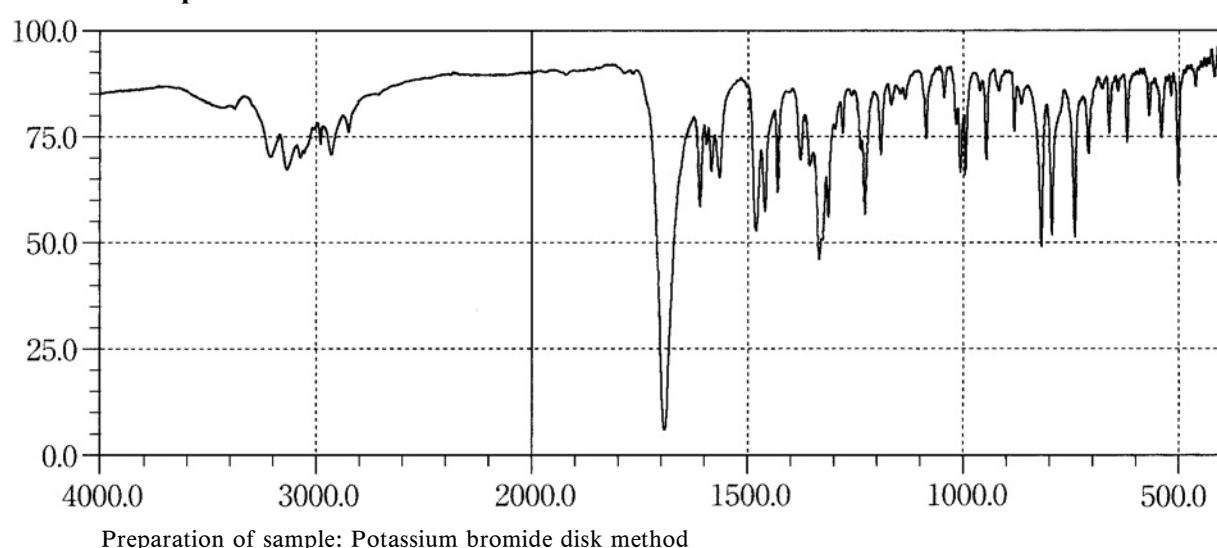

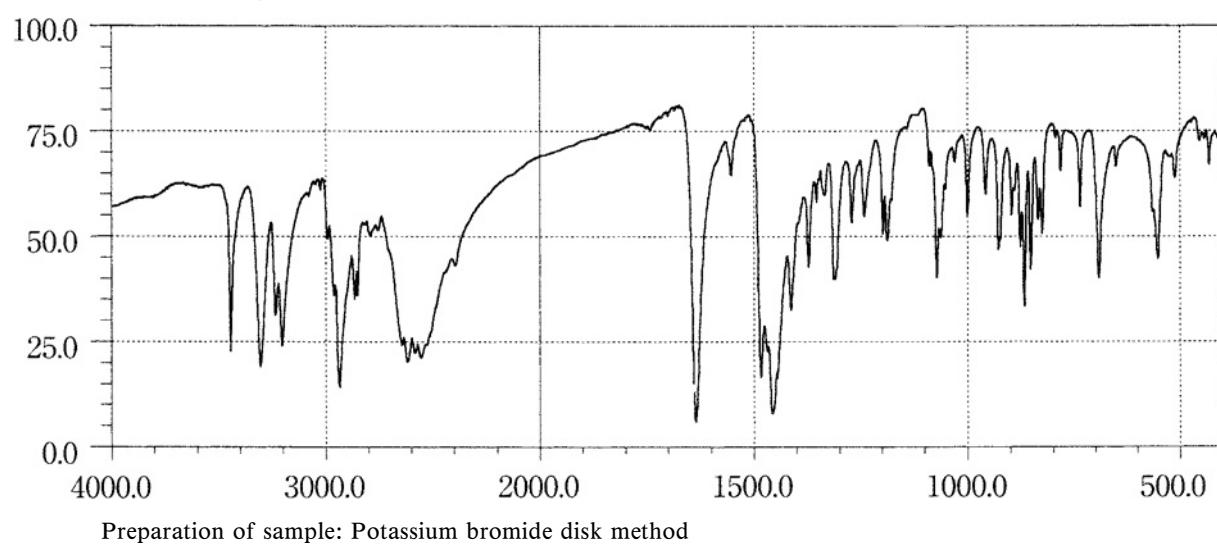

Preparation of sample: Potassium bromide disk method

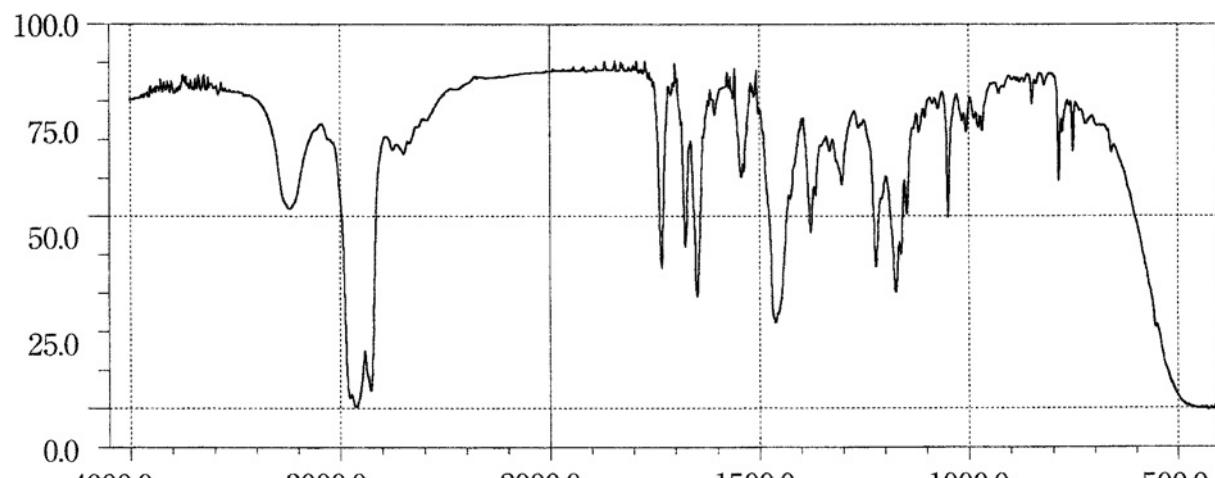

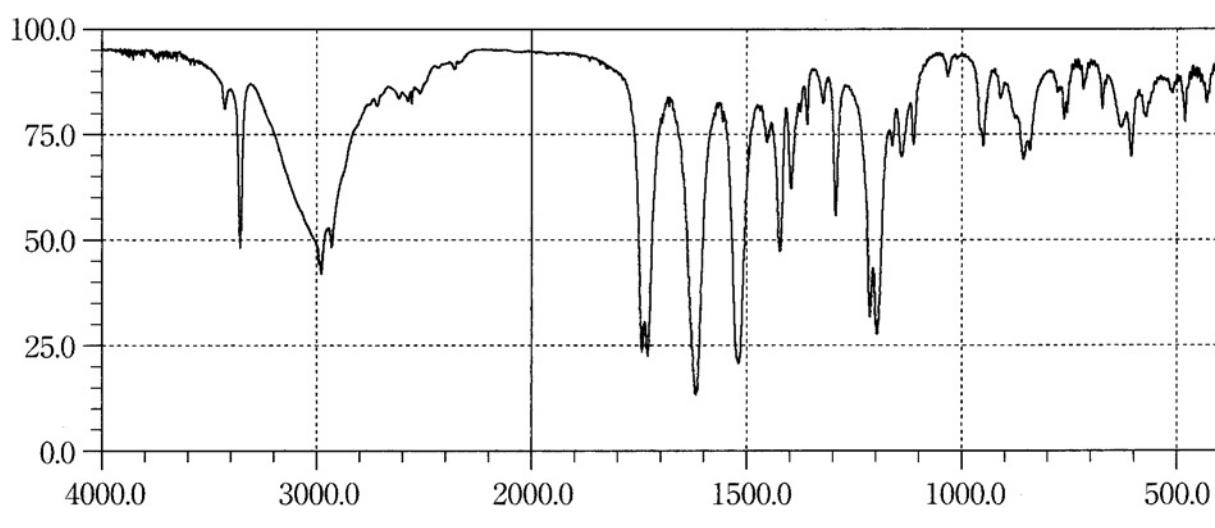

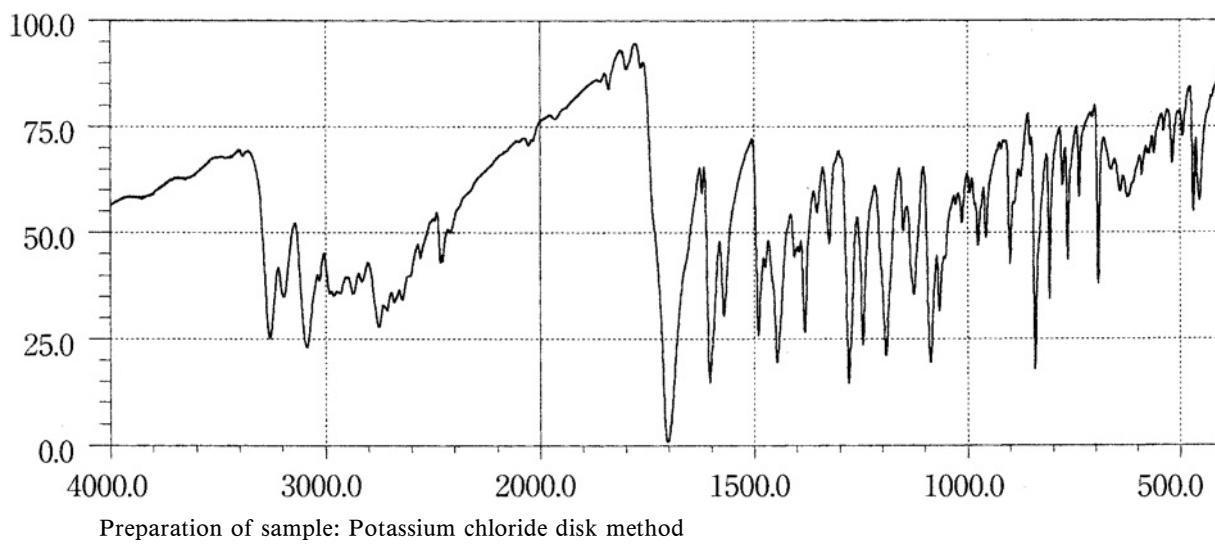

Betamethasone Valerate

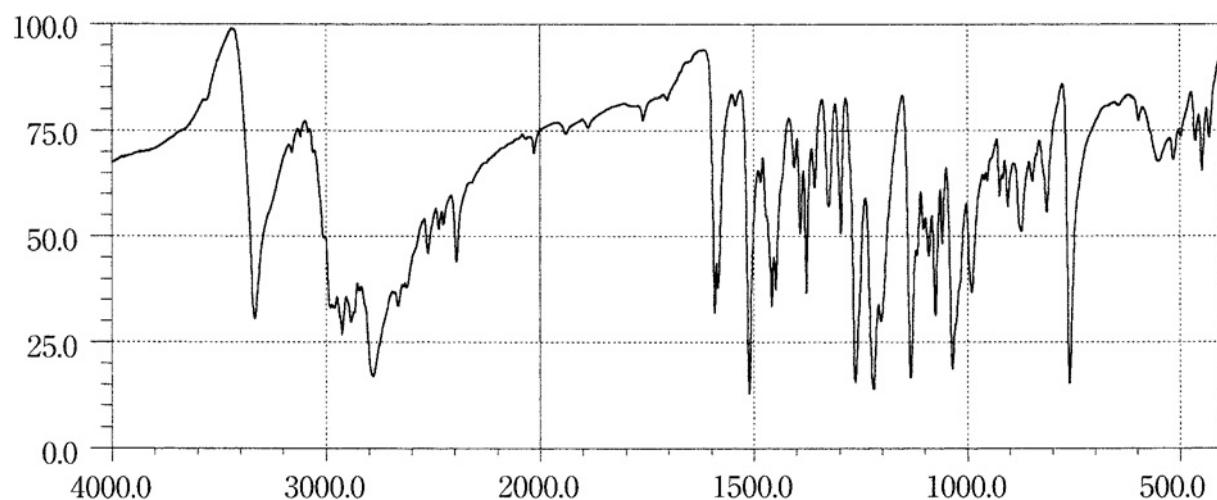

Preparation of sample: Potassium bromide disk method

Bethanechol Chloride**Bezafibrate****Bifonazole**

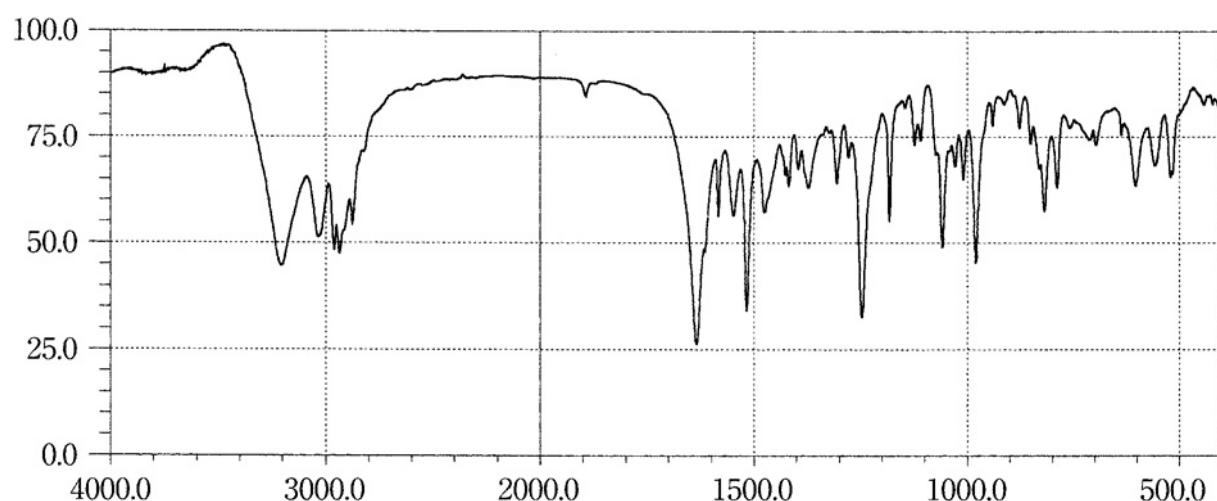

Biperiden Hydrochloride**Bisacodyl****Bleomycin Hydrochloride**

Bleomycin Sulfate**Bromazepam****Bromhexine Hydrochloride**

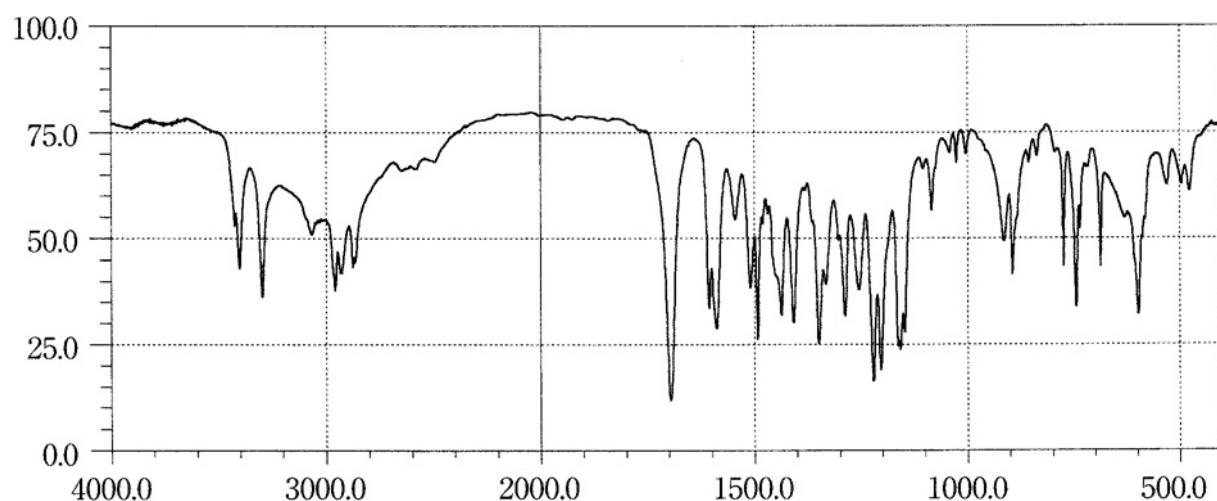

Bromocriptine Mesilate**Bucillamine****Bucumolol Hydrochloride**

Bufetolol Hydrochloride

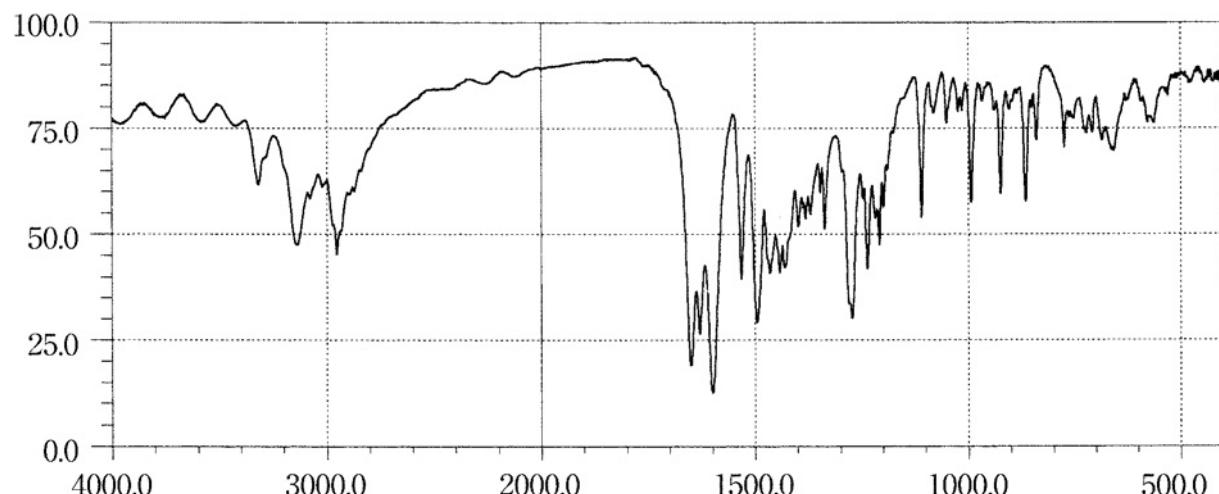

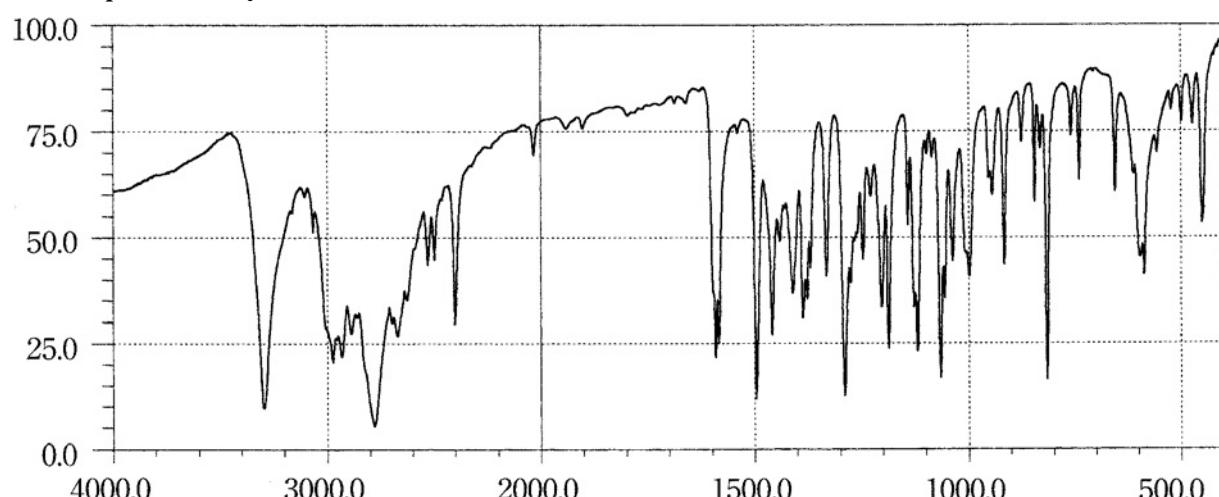

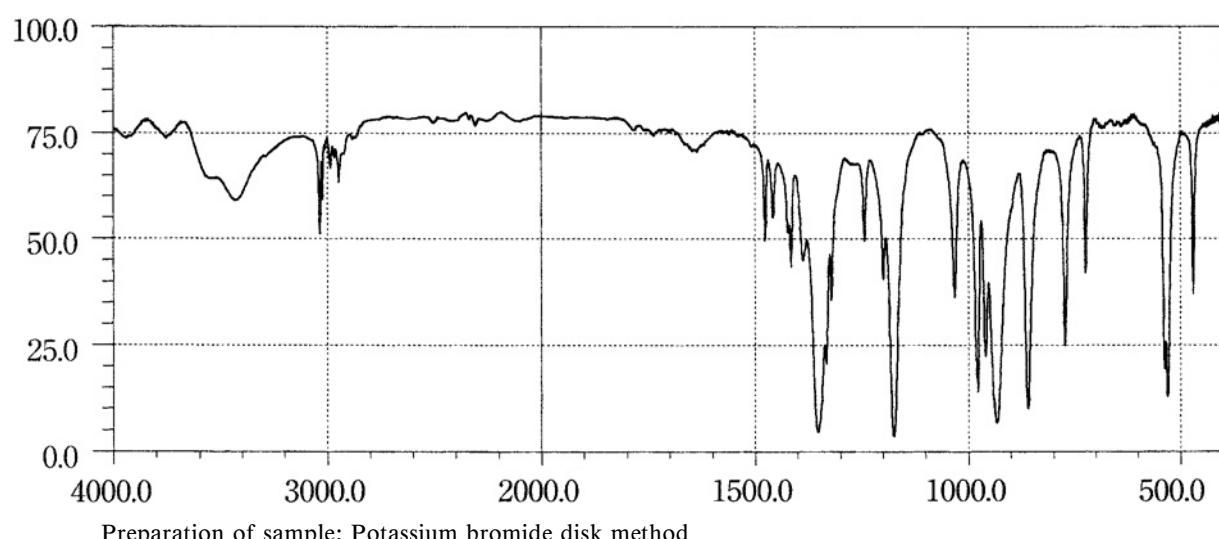

Preparation of sample: Potassium chloride disk method

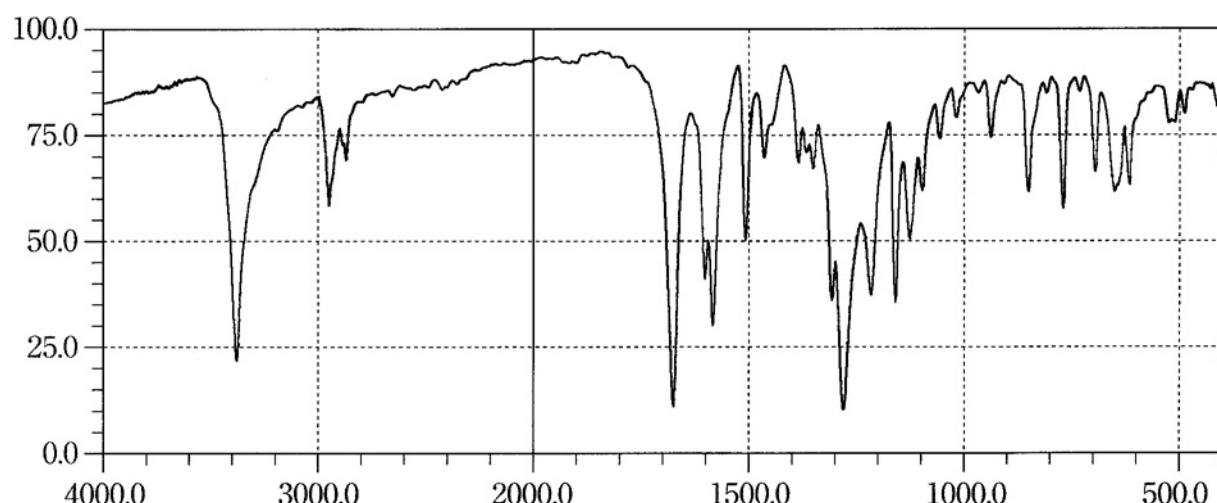

Bufexamac

Preparation of sample: Potassium bromide disk method

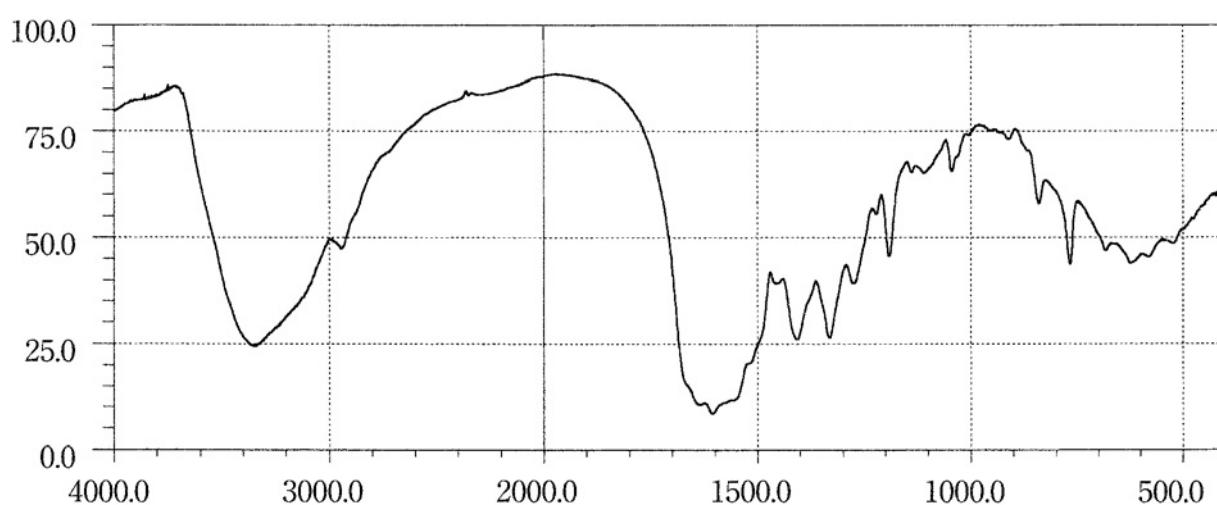

Bumetanide

Preparation of sample: Potassium bromide disk method

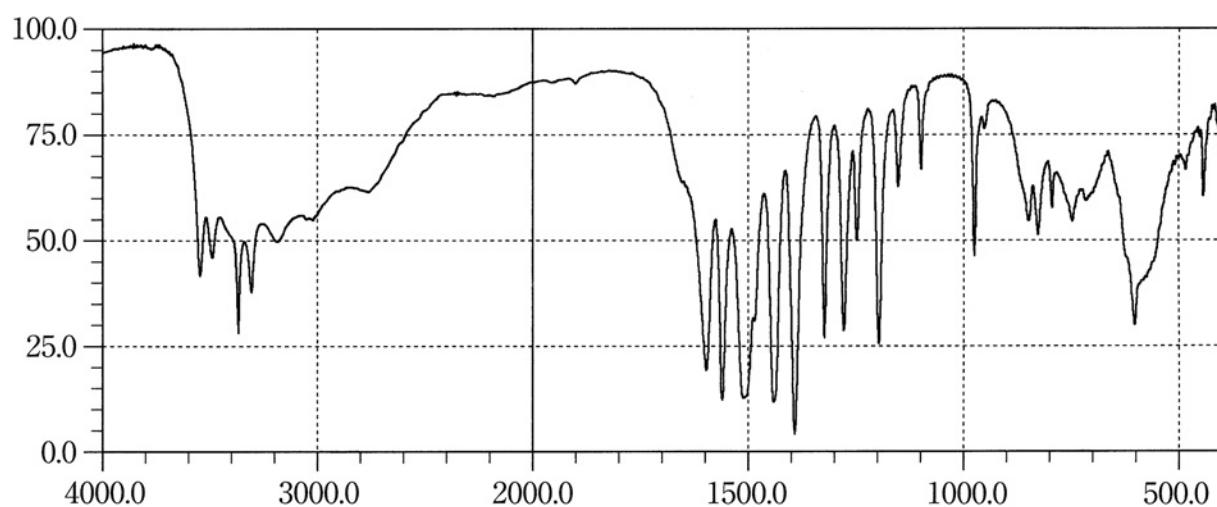

Bunazosin Hydrochloride**Bupranolol Hydrochloride****Busulfan**

Butyl Parahydroxybenzoate

Preparation of sample: Potassium bromide disk method

Calcium Folinate

Preparation of sample: Potassium bromide disk method

Calcium Para-aminosalicylate Hydrate

Preparation of sample: Potassium bromide disk method
