

# 4th PMDA Training Seminar

*- Reviewing of Generic Drugs -  
February 3 to 7, 2014, Tokyo, JAPAN*

*The PMDA training seminar is established for the exchange of pharmaceutical and medical device regulatory information between the PMDA and its counterpart agencies all over the world. The 4th PMDA Training Seminar is designed for officials who are engaged in review of generic drugs. In this program, PMDA experts will present descriptions of review of generic drugs, including case studies.*

*There is no registration fee for this program. All participants are expected to actively participate in all of the sessions.  
We are looking forward to many officials around the world taking this opportunity to attend!*

*The training is not open to the pharmaceutical industry or non-regulatory authorities. Attendees are responsible for their own travel, lodging and food expenses.*

The participants will be  
welcome to join  
**PMDA 10-year  
Anniversary Forum**  
Let's celebrate together!
