Revision of Precautions

Sterile talc

August 6, 2015

Non-proprietary name

Sterile talc

Safety measure

Precautions should be revised in the package insert.

In the Careful administration section, the following text should be added (underlined parts are revised):

Patients with interstitial lung disease

In the Clinically significant adverse reactions subsection of the Adverse Reactions section, the following text should be added (underlined parts are revised):

Interstitial lung disease:

Interstitial lung disease may occur. Patients should be carefully monitored for clinical symptoms such as cough, dyspnoea, and pyrexia. If any abnormalities are observed, tests such as chest X-rays or chest computed tomography (CT) scans should be conducted. If interstitial lung disease is suspected, appropriate measures such as administration of adrenal corticosteroids should be adopted.
