# Revision of Precautions

## Carmustine

### Non-proprietary name

Carmustine

### Safety measure

Precautions should be revised in the package insert.

In the Important precautions section, the following text should be added (underlined parts are revised):

Air accumulation may occur at the implant site, and there have been reports of neurological symptoms. After the implantation of the drug, neurological symptoms, such as hemiplegia, aphasia, and disturbed consciousness, should be carefully monitored. If any abnormalities are observed, appropriate measures should be adopted.
