Revision of Precautions Eltrombopag olamine

September 13, 2016

Non-proprietary name

Eltrombopag olamine

Safety measure

Precautions should be revised in the package insert.

In the Precautions of dosage and administration section regarding the concomitant use with formulations containing multivalent cations etc., the following text should be revised (underlined parts are revised):

Blood concentration of this drug decreases when concomitantly used with products such as antacids, milk products, and formulations containing multivalent cations (iron, calcium, aluminum, magnesium, selenium, zinc, etc.). Consumption of these products should be avoided 4 hours before and 2 hours after receiving this drug.
