

1 PHARMACOPOEIAL DISCUSSION GROUP

2
3 **CORRECTION**

4 CODE: E55a

5 **NAME: Gelatin (gelling grade)**

6 **(Correction of the sign-off document dated 6 June 2012)**

7
8 **Item to be corrected: TEST, Peroxides, Suitability test.**

9 *Suitability test.* Dip a test strip for 1 s into hydrogen peroxide standard solution (~~10~~ 2 ppm H₂O₂)
10 [prepared by dilution of hydrogen peroxide solution (30 g/l H₂O₂)], such that the reaction zone is
11 properly wetted. Remove the test strip, shake off excess liquid and after 15 s compare the reaction
12 zone with the colour scale provided. The test strips are suitable if the colour matches that of the ~~10~~ 2
13 ppm concentration.
