5 **34.** In principle, the JP Drug Products are controlled appro-
6 priately according to the direction under the Elemental Impu-
7 rities of the General Tests. When elemental impurities in the
8 drug products are appropriately controlled in accordance with
9 the direction, it is not necessary to perform the tests on ele-
10 mental impurities such as heavy metals and arsenic in the mon-
11 ographs including but not limited to those of drug products,
12 drug substances and excipients.
