Revision in line with the Instructions for Package Inserts of Prescription Drugs, PAB Notification No. 606 by the Director General of Pharmaceutical Affairs Bureau, MHW, dated April 25, 1997 (Old instructions): Revised language is underlined.

Current	Revision
<p>Contraindications Patients with serious renal disorder or patients with azotaemia</p> <p>Careful Administration (N/A)</p> <p>(N/A)</p>	<p>Contraindications Patients with serious renal disorder or patients with azotaemia <u>(for both, patients on dialysis or hemofiltration are excluded)</u></p> <p>Careful Administration <u>Patients on dialysis or hemofiltration with serious renal disorder or azotaemia</u></p> <p>Important Precautions <u>The volume of urea, etc. removed and accumulated in patients on dialysis or hemofiltration with serious renal disorder or azotaemia varies depending on the dialysis method and patients' conditions. Initiation and continuation of administration should be determined after the patient's conditions are carefully checked based on assessment of blood biochemistry, acid-base equilibrium, and body-fluid balance, etc.</u></p>

N/A: Not Applicable, because the section is not included in the current package insert.
