Revision of Precautions

Cefmenoxime hydrochloride (preparations for otic and nasal use), chloramphenicol (solution for topical use, oral dosage form), tetracycline hydrochloride (powders, capsules), polymixin B sulfate (powders), clindamycin hydrochloride, clindamycin phosphate (injections), benzylpenicillin potassium, benzylpenicillin benzathine hydrate, lincomycin hydrochloride hydrate, aztreonam, amoxicillin hydrate, ampicillin hydrate, ampicillin sodium, potassium clavulanate/amoxicillin hydrate, dabezacin sulfate (injections), sultamicillin tosylate hydrate, cefaclor, cefazolin sodium, cefazolin sodium hydrate, cephalexin (oral dosage form with indications for otitis media), cefalotin sodium, cefixime hydrate, cefepime dihydrochloride hydrate, cefozopran hydrochloride, cefotiam hydrochloride (intravenous injections), cefcapene pivoxil hydrochloride hydrate, cefditoren pivoxil, cefdinir, ceftazidime hydrate, ceferam pivoxil, ceftriaxone sodium hydrate, cefpodoxime proxetil, cefroxadine hydrate, cefuroxime axetil, tebipenem pivoxil, doripenem hydrate, bacampicillin hydrochloride, panipenem/betamipron, faropenem sodium hydrate, flomoxef sodium, fosfomycin calcium hydrate, meropenem hydrate, chloramphenicol sodium succinate, demethylchlortetracycline hydrochloride, doxycycline hydrochloride hydrate, minocycline hydrochloride (oral dosage form), kanamycin sulfate
September 8, 2020

**Therapeutic category**
Agents for otic and nasal use, dermatics for purulence, antibiotic preparations acting mainly on gram-positive bacteria, antibiotic preparations acting mainly on gram-negative bacteria, antibiotic preparations acting mainly on gram-positive and gram-negative bacteria, antibiotic preparations acting mainly on gram-positive and gram-negative bacteria, rickettsia and chlamydia, antibiotic preparations acting mainly on acid-fast bacteria

**Non-proprietary name**
Cefmenoxime hydrochloride, chloramphenicol, tetracycline hydrochloride, polymixin B sulfate, clindamycin hydrochloride, clindamycin phosphate, benzylpenicillin potassium, benzylpenicillin benzathine hydrate, lincomycin hydrochloride hydrate, aztreonam, amoxicillin hydrate, ampicillin hydrate, ampicillin sodium, potassium clavulanate/amoxicillin hydrate, dibekacin sulfate, sulfamethoxazole tosylate hydrate, cefaclor, cefazolin sodium, cefazolin sodium hydrate, cephalexin, cefalotin sodium, cefixime hydrate, cefepime dihydrochloride hydrate, cefozopran hydrochloride, cefotiam hydrochloride, ceftapene pivoxil hydrochloride hydrate, cefditoren pivoxil, cefdinir, cefazidime hydrate, ceferam pivoxil, ceftriaxone sodium hydrate, cefpodoxime proxetil, cefuroxime hydrate, cefuroxime axetil, tebipenem pivoxil, doripenem hydrate, bacampicillin hydrochloride, panipenem/betamipron, faropenem sodium hydrate, flomoxef sodium, fosfomycin calcium hydrate, meropenem hydrate, chloramphenicol sodium succinate, demethylchlortetracycline hydrochloride, doxycycline hydrochloride hydrate, minocycline hydrochloride, kanamycin sulfate

**Safety measure**
Precautions should be revised in the package insert.
Revision in line with the Instructions for Package Inserts of Prescription Drugs, PAB Notification No. 606 by the Director General of Pharmaceutical Affairs Bureau, MHW, dated April 25, 1997 (Old instructions):

Revised language is underlined.
